

## MOLINEUX

## Takes the Witness Stand Today in His Own Behalf.

## Young Man Accused of Poisoning Mrs. Adams for the First Time Gives Evidence in Court—Once Before Convicted.

New York, Oct. 31.—The unknown and the unheard of side of the charge of murder against Roland Burnham Molineux is to be placed upon the records of the court. The defense in the greatest murder case in recent criminal history has decided to show its hand and the court room where the young defendant is being tried for his life was crowded this morning from judge's bench to the last row of seats in the spacious court room. Hundreds were turned away and the police had to form strong cordons to keep the would-be spectators from breaking down the doors.

In a quiet, almost inaudible tone, Governor Black began his address to the jury. He told them that he would show that the prisoner never purchased the cyanide of mercury and that he never hired a letter box or knew of any contents or letters received at that box.

"We shall prove to your satisfaction that the defendant never wrote any of the disputed handwritings, such as the poison address, Cornish letters or any of the disputed writing. We shall show this and the defendant will tell you this himself and tell you all."

Governor Black then turned to the defendant and said:

"Mr. Roland B. Molineux."

With almost a sprightly step the defendant went to the witness chair and a buzz of excitement.

"You are the defendant?"

"I am."

"When were you arrested?"

"February 27, 1899."

"How old are you?"

"I am 26 years old."

"Your father is General Molineux?"

"He is."

"Where were you educated?"

"I studied in the Brooklyn High school and the Brooklyn Polytechnic school."

Continuing the witness said he had studied chemistry and had worked for his father in Brooklyn and then went to Newark where he was employed. Molineux's voice was quiet and firm and he showed no trace of excitement. He said that he was married at the time of his arrest. Molineux further stated that he belonged to several clubs and joined the Knickerbocker Athletic club in 1895 and resigned in 1897. He said he had joined the New York Athletic club in 1893 and severed his connection with the club later.

Molineux said he used to compete on horizontal bar and flying trapeze competition. He said that he had been a member of the house committee of the Knickerbocker Athletic club and then enumerated the different details of the committee's work.

"Did you know Harry Cornish?"

"I did."

"Did you have disagreements with him?"

"I had several trifling disagreements with him."

"Where were they?"

"I had an argument with Cornish over the entrance of certain men to the club. I said that the men were good athletes, but did not add socially to the club. I had a disagreement with Cornish over an amateur circus. I was getting up. I did not like the way he did things and spoke to him several times about it and after that I was sentenced to Cornish once said something about me and I asked for an investigation."

Here the prisoner's voice became almost inaudible and much of the testimony could not be heard.

Governor Black asked the witness to speak louder. Molineux continuing said that he spoke to Ballantine, that he thought it was wrong for Cornish to speak of Mr. Weeks as he did, as Weeks was a member of another club. Weeks said he had never spoken to Cornish about the matter and no official action was ever taken. Molineux said he did not recall any further dis-

agreements with Cornish. He said that Cornish spoke to him about the time he left the club.

"I said along about that time that I would resign if Cornish did not. I met Cornish and he said: 'You did not do it, did you?' and I answered: 'No, you win.' My resignation was in my pocket at the time."

Did you entertain any anger for Cornish?"

"Well (after that I did," said the witness smiling, "but I did not entertain it long."

Molineux said further that any animosity he had against Cornish had died completely out of his mind.

"Did you ever have any conversation with Rudolph Hughes about Cornish?"

"Yes, sir."

"What was the conversation?"

"I told Hughes that I wanted to get the club in a better condition, and that Cornish was not any good."

"Where were you on December 23, 1898?"

"I can't tell you except that I was about my regular business. Remember taking the 8:10 or 8:15 train for Newark."

"What time did you leave your factory in Newark?"

"I think about the usual time."

"Where did you go when you came to New York?"

"I think I went to the club and then home."

"Did you ever go Hartigan's store in Newark?"

"Yes, twice. Once to buy a cut-glass bowl and the second time to have a watch chain repaired."

"Did you buy a silver bottle-holder there?"

"I never did."

"Did you ever see the bottle-holder in this case before the coroner's inquest?"

"Never."

"Did you ever hire a letter box from Mr. Kock at 1620 Broadway?"

"No."

"Did you hire a letter box from any other person?"

"I did not."

"Where were you on December 23, 1898?"

"On that date, I find, to the best of my recollection, I went to Columbia college in the afternoon. I left Newark at 11 o'clock in the morning."

"Has your recollection ever been refreshed as to what took place that afternoon?"

"Yes, by my counsel."

"I find that I visited Prof. Voite and went with him to the gymnasium of the university and then went home."

"What did you do in the evening?"

"I probably went to the opera."

"Were you near the general post-office that day?"

"No nearer than Cortland street."

"Did you ever mail the poison package?"

"No."

"Did you ever cause any one to mail it?"

"No."

"Are you familiar with cyanide of mercury and its properties?"

"No, sir."

Molineux then told of certain chemicals he used in the manufacture of paints.

"Do you know how to make cyanide of mercury?"

"I do not."

"Did you ever use it in your business?"

"I did not."

"Did you ever hear of it?"

"Not before the trial."

"I show you now the address on the poison package, did you ever see that before now?"

"No, sir. That is the first time I have ever had the paper in my hand."

Molineux's counsel then handed the defendant all the Cornish and Ballantine letters and asked if he ever wrote the letters or addressed the envelopes.

"I did not," was Molineux's reply.

Mollneux told of his whereabouts on the day Mrs. Kate Adams died and denied all connection whatsoever with Mrs. Adams' death.

## ASSERTS IRELAND WILL BE MOVED.

St. Paul, Oct. 31.—Archbishop Ireland's selection by the congregation of the propaganda, which meets in Rome in December, to succeed to the vacancy caused by the death of Archbishop Feehan is confirmed here by a member of Archbishop Ireland's official household, who says that the report may be accepted as a settled fact, although the archbishop had desired to remain here.

The news is known by a majority of the clergy of the St. Paul see, and it is understood that the archbishop was the recipient of many felicitations at a dinner which he gave to the visiting bishops last night.

The further positive statement is made that Bishop O'Gorman of South Dakota is to become archbishop of St. Paul, and that Patrick R. Heffron, rector of the St. Paul seminary, is to become bishop of South Dakota.

## TO JAIL

## Mr. W. K. Vanderbilt May Go When He Returns To France.

Paris, Oct. 31.—W. K. Vanderbilt, Sr., has been condemned by default to two days' imprisonment and the payment of a fine of ten francs for speeding his automobile in Paris recently. Mr. Vanderbilt is now in New York and will have to appeal to the supreme court to have his sentence remitted or submit to arrest when he returns to France.

## GORMAN

## THE SENATOR GIVES HIS VIEWS OF THE SITUATION.

Thinks the Next House Will Be Democratic—Trusts and Tariff Are the Issues.

Laurel Md., Oct. 31.—Senator Gorman has expressed his belief that the next House of Representatives will be Democratic. "It is true," he said, "that the increase in the membership of the House and the way in which the country has been re-districted makes Democratic success far more difficult. But conservative men are looking to the Democrats to curb the excesses of the party in power. I think the welfare of the country demands Democratic success."

Mr. Gorman commented on the present attitude of ex-President Cleveland, which, he said, has given much satisfaction and which will induce many thousands who have been hostile to the ex-President to welcome his support.

"The trusts and the tariffs," said he, "will be the issues in the next presidential campaign. They are the living questions. The free silver issue has been lost to sight."

"It looks now as though Roosevelt will be the Republican nominee." To the mention of his own name in connection with the Democratic nomination he said he had not given it a thought.

## STORE

## Near Ironton, Burglarized and Much Property Stolen.

Ironton, Ohio, Oct. 31.—Burglars last night entered the store of E. B. Willard at Steece, 13 miles from here. The postoffice is located in the store. They completely wrecked the large safe with nitroglycerine and secured \$200 in cash, \$75 in stamps and \$4,000 worth of government bonds and other securities. The bulk of the money belongs to the postoffice, while the bonds and securities were the property of Willard. The explosion did not disturb the village and the robbery was not known until this morning.

## VOLCANO

## Eruption Causes Great Damage to Crops in Guatemala.

San Francisco, Oct. 31.—The entire coffee zone of Guatemala has been destroyed by flames and smoke from the volcano of Santa Maria. Eruptions threaten the destruction of every living thing within reach of the fumes and fire that pours from the burning mountain, according to a cable to Castle Bros., importers of this city, received from their coffee plantation in Guatemala. Only meager details are given.

"Last Monday," said Louis Hirsch, of Castle Bros., "I wired to our representatives there asking for news of the eruption and last night I received in reply this cablegram:

"Tis true. Enormous losses. Volcanic eruption. Coffee zone destroyed. Our lives in danger. Further reports will follow."

"The coffee districts referred to," said Mr. Hirsch, "are the Costa Rica and Costa Grande. They are the finest plantations in the country. If the coffee district is destroyed, as the cable seems to indicate, one-third of the crop is most likely involved."

"The volcano of Santa Maria is located between Retalhuleu and Quezaltenango. The towns in the neighborhood most likely to be destroyed are San Felipe, Mazatenango and Quetzaltenango. The volcano has been quiet for many years."

## LASHES

## To Be Given the Son of Ex-Governor Dukes For Larceny.

South McAlester, L. T., Oct. 31.—A revival of the old Choctaw tribal punishment will probably be witnessed here within a few days. Joe Dukes, son of ex-Governor G. W. Dukes, entered the office of the clerk of the Choctaw Citizenship Commission Wednesday, and removed several valuable books containing the citizenship rolls of the Choctaw nation and had them hauled to the home of a relative. This act is declared to be larceny and punishable with 39 lashes upon the bare back.

## FROM MANILLA

San Francisco, Cal., Oct. 31.—The transport Sheridan arrived from Manilla this morning with 1,011 soldiers, including 520 men of the Ninth cavalry, 124 sick, 8 prisoners and five infants.

## THE DOUKHOBORS' PILGRIMAGE

YORKTON, ASSINIBOIA, Oct. 31.—The wandering Doukhobors were 20 miles from here this morning, on their way to Winnipeg. They are in a terrible state from lack of food and their long march. Since leaving their homes, they had not partaken of a substantial meal until this morning. Mounted police here have been mobilized and will follow the zealots, who if not interrupted, will go south into the United States.

Yorkton, Northwest Territory, Oct. 31.—Varied opinions are expressed as to the best way of dealing with the Doukhobors, but on one point everyone is unanimous, and that is that nothing is to be feared from them physically. Not in a single instance have they been reported as creating any disturbance or wilfully doing any harm. They are simply on a religious pilgrimage and their individual behavior speaks well for their Christian character if some of their harmless fanaticism were excluded.

The mounted police tried to bring them to their quarters to the position north of town and a search in inducing them to come to the station of the town, but they positively refused to move northward, although offering no opposition. Finding that it was impossible to induce them to go even in the direction of the station, they determined to let them alone.

Finding that it was impossible to induce them to go even in the direction of the station, they determined to let them alone.

What caused their religious fervor? They were a sect of the Russian sect known as the Doukhobors. They were taken in charge by the government and sent to their religious retreats.

What caused their religious fervor? They were a sect of the Russian sect known as the Doukhobors. They were taken in charge by the government and sent to their religious retreats.

same men. She also brought the bodies of 17 soldiers. General Chaffee on the transport Sumner, will not arrive until next week.

## CHAS. M. SCHWAB ABOUT TO RESIGN.

New York, Oct. 31.—All sorts of rumors about Charles M. Schwab are afloat in the Wall street district. One of these is that Mr. Schwab will resign from the Presidency of the United States Steel Corporation in the near future and that his successor will be George W. Perkins of the J. P. Morgan firm. This report can not be verified. J. P. Morgan & Co. will not discuss it, and at the office of the United States Steel Corporation it is said that nothing is known of Mr. Schwab's alleged intention to resign.

Among those mentioned as possible successors to President Schwab besides Perkins, are Elbert H. Gary, Jas. Gayly and Henry Clay Frick.

"Billy" Davis, colored, who came to Newark from Granville, was taken suddenly sick Thursday night, and for a time it was thought he was dying. He is very sick.

## FIRE

## Causes Heavy Losses in Chicago and Also Minneapolis.

Minneapolis, Minn., Oct. 31.—A six-story building occupied by the Minneapolis Paper company and owned by J. C. Iswald & Co., was destroyed by fire at midnight; loss \$250,000. Six firemen were injured when a ladder broke. Captain George Smith of engine company 16, is perhaps fatally hurt. Firemen George Cheney and Frank Hessik are also badly hurt. The other three firemen were able to reach the city hospital, without assistance.

Chicago, Oct. 31.—The brick warehouse of the American Malt Company was destroyed by fire early this morning; loss \$200,000. The light of the flames filled the county jail nearby and created a panic among the prisoners and the guards had all they could do to quell it.

Columbus, O., Oct. 31.—Fire at E. M. Newman's store, corner Fourth and Main, early this morning caused a \$6000 loss.

## Celtic Chartered.

Glasgow, Oct. 31.—The White Star liner Celtic, 21,000 tons, has been chartered by 100 wealthy New Yorkers for a cruise from New York to Mediterranean ports.

The cable from Australia to Vancouver was completed today.

## COMMISSION

## Fixes the Time That Awards Will Take Effect.

## The Date is November 1--This is Done So Commissioners Will Not Be Hurried--Seven Commissioners in the Mines.

Scranton, Pa., Oct. 31.—The mine arbitration commission has decided that if at the conclusion of the hearings and deliberations, any awards are made affecting the existing rate of wages, such awards shall take effect from November 1, 1902. The recorder of the commission states that this resolution was adopted by the commission because it felt that it was important to make its investigation deliberately and that it might be well in order to relieve itself from pressure from any source which might cause undue haste.

The seven commissioners appointed by President Roosevelt to adjust the differences existing between the anthracite mine workers and their employers, are making a tour of the extreme upper coal field, and are seeing every step taken in the production of coal from the time it is blasted in the ground, hundreds of feet below the surface, up to the point where it is sent to market ready for the use of the consumer.

The arbitrators had an interesting day yesterday and returned to their hotel grimy from coal dust and tired after eight busy hours.

The trip was quite a novelty to most of those in the party. The commissioners displayed the greatest interest in every feature of coal mining. The seven arbitrators had to endure many discomforts, make their way throughout the wet places in the mines, almost crawl along some of the gangways in the workings and pass through clouds of coal dust in the breakers. Notwithstanding this, their eagerness for information was not finished, and they are today putting in another hard day's work in this vicinity.

Bishop Spalding asked more questions than any of the others.

From their actions it is certain that the commissioners have agreed not to say what they think of the question that will come before them. Several persons approached one or another of the commissioners during the day merely for the purpose of having him say what he thought of some of the things he saw, and in each case the inquirer was rebuffed.

When the party arrived at Forest City the entire party was banded into three small cars. What is known in the language of the miners as a "lokie", which is a small locomotive, drew the cars to No. 2 shaft, a mile down the valley. Here the commissioners had a little fun with one another. As the mine was wet and dirty, the company officials provided rubber overshoes, overalls, jumpers and miners' caps for the entire party. Judge Gray and Bishop Spalding were the first to don the uniform of the miner and good-naturedly took the remarks thrust at them by their colleagues as to whether or not they belonged to the union.

After the party had been rigged out and provided with miners' lamps, which they either carried in their hands or fastened to their caps, a descent of the 100-foot shaft was made. At the foot or bottom of the

est in the election was very pronounced yesterday in the financial district. Wagers made early in the day showed Odell a favorite at 2 to 1, but the heavy bets laid by speculative Democrats quickly caused the odds to shift to 5 to 3 and at that quotation thousands of dollars were placed.

Taken altogether, it was the biggest day in a betting sense since the odds were first posted on the election. It was estimated that more than \$100,000 were represented in the bets made.

The Kings county campaign fairly sizzled last night. Democratic leader John L. Shea bases a claim of 20,000 plurality in that county for Cole on a canvass just completed. Cleveland only had 22,655 in 1892.

### DEMOCRATIC STATE TICKET

For Secretary of State,  
**HERBERT S. BIGELOW**, of Hamilton County.

For Judge of the Supreme Court,  
**MICHAEL DONNELLEY**, of Henry County.

For State Dairy and Food Commissioner,  
**PHILIP H. BRUCK**, Franklin County.

For Member State Board of Public Works,  
**JOSEPH J. PATER**, of Butler County.

### DEMOCRATIC COUNTY TICKET.

Probate Judge,  
**WALDO TAYLOR**.

Sheriff,  
**WM. H. ANDERSON, Jr.**

Prosecuting Attorney,  
**J. R. FITZGIBBON**.

County Commissioner,  
**JOSEPH E. BROWNFIELD**.

County Surveyor,  
**C. P. KINSELY**.

Infirmary Director,  
**CHARLES S. HOWARD**.

Coroner,  
**SCOTT J. EVANS**.

### CIRCUIT JUDICIAL TICKET.

For Circuit Judge,  
**S. M. DOUGLASS**, of Mansfield.

Democratic Congressional Ticket.  
For Congress,  
**JOHN W. CASSINGHAM**, of Coshocton.

### Facts That Are Carefully Suppressed.

In all the American-Tribune's talk about Democratic "extravagance," it never offers any figures by comparison of Republican "economy."

Especially has it failed to give any local object lessons.

It has not shown or attempted to show that there are lower taxes or greater economy in the Republican townships of Licking county than in the Democratic townships.

It has not shown such a thing as Republican "economy" anywhere by comparison with Democratic management.

It has not shown when taxes were reduced by a Republican getting into office in Licking county.

It has not shown how much the Republicans reduced taxation in Newark and how much they reduced the city debt when they got control of the Council.

The reason that the A.-T. has made none of these showings is because it cannot do so.

City taxes and indebtedness were always INCREASED under Republican control.

City taxes and debts have never been reduced except by Democrats.

But these are facts the A.-T. is always careful to suppress.

The way for every Democrat to vote next Tuesday is to put the X mark in the circle under the rooster and no where else.

If every Democrat in Ohio who voted the national ticket in Ohio in 1920 will go to the polls this year the Democratic ticket will be elected, but every Democrat do his duty.

If you are opposed to the evils of trusts vote the Democratic ticket. It is the Republican party that has established the system under which the trusts flourish, and now protects them on the one hand while "frying the fat" on the other.

### To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box.

### The Court Records Tell the Story.

"Mr. Randolph has made his own way without favor or influential friends to push him along; he does not now possess any shares of bank stock, but has built up a varied practice at the bar and acquired a wide experience in the trial of cases which will be a material aid to him in the office of prosecutor."

The paragraph quoted above is taken from today's Utica Herald.

The Advocate has had nothing derogatory whatever to say of Mr. Randolph, but when the papers that are supporting his candidacy go out of their way not only to make a meaning at Mr. Randolph's opponent, but to absolutely misstate certain facts concerning Mr. Randolph it is time to speak.

It is true that Mr. Fitzgibbon owns a few shares of bank stock but he bought them and paid for them out of the revenues of his law practice. Is there anything criminal in owning a few shares of bankstock? Any one of us would be glad of the opportunity to possess a few. Mr. Fitzgibbon has "friends," but his friends long ago recognized in him a lawyer of ability, sound sense and great legal talent. They employed him and the record he has made as a trial lawyer is indeed a brilliant and highly creditable one.

The assertion that Mr. Randolph has "built up a varied practice at the bar and acquired a wide experience in the trial of cases" makes those who know of the court house transactions smile.

There is no comparison whatever between the experience of these two lawyers and the relative amount of their business in the courts. The court records tell the story with greater accuracy than the Utica Herald.

Two years ago Governor Odell carried New York state by 143,000 plurality. His managers this year claim his re-election by 20,000, which is quite a drop. It would not be surprising if the Democrats carried the state and elected "Coker." At least the fight is a very close one.

Suffer on, groan on, sicken on, die on if you will not use Walther's Peppermint Port and be cured.

The way for every Democrat to vote next Tuesday is to put the X mark in the circle under the rooster and no where else.

The American-Tribune howls about Democratic "extravagance," but it suppresses the fact that the highest taxes ever assessed in Newark and the greatest increase of the city debt was the work of a Republican Council.

### Hanna and Cox Home Rule.

The most conspicuous matter that appeared in yesterday's American-Tribune was the statement that Mark Hanna approves the new municipal code, and pronounces it an "excellent measure." In fact he indulges in the most extravagant praise of the code and takes great pleasure in letting the people know that it suits him exactly.

But this is not news. The code was made just as Hanna and Cox started out to have it made, and of course they are both highly pleased.

Hanna especially endorses the last finishing touch that was put on the code in providing for the appointment of the Board of Public Safety by the Governor in case a two-thirds vote of the Council cannot be had to confirm the Mayor's appointments. And the "Governor will certainly appoint good men," says Hanna.

The "good men" will invariably consist of the fellows that the Republican machine bosses pick out and recommend to the Governor. That will be the Governor's only guide to appoint "good men."

When the Governor appoints these "good men" whom the Republican machine bosses dictate, of course that will keep the police and fire departments of the cities out of politics. Very foxy are Hanna and Coxey!

And this is what the Republican defenders of the code call "Home Rule." Why are not the people permitted to elect the Board of Public Safety? Would not that be a more genuine kind of Home Rule?

### Vote Against Trusts.

Every patriotic voter should do his duty at the polls next Tuesday. That duty is to vote against the trusts and monopolies which now have the country by the throat.

There is one way, and one way only, to deal a blow at these gigantic combinations which are rapidly acquiring control of all the great industries and all branches of trade and commerce, and that is to vote against the political party which fosters them, protects them and defends them, and for which these combinations provide the campaign funds.

The fact is that the trusts own the Republican party—not all the individuals composing that party, but its organization and its office-holders. The Republican party will not do anything to curb their power.

James R. Fitzgibbon, one of the most capable attorneys at the Newark bar, a young man of education, brains and talent, is the Democratic candidate for Prosecuting Attorney. Mr. Fitzgibbon at the present time holds this office by virtue of appointment and his record as an officer is worth looking into. "By their fruits ye shall know them," Mr. Fitzgibbon has not lost a single case which he as the representative of the county or state has prosecuted. This is more important than appears at first thought but when one remembers that the costs of every case that the State loses are assessed against the county tax payers, it is apparent that a good man and a good lawyer is necessary in the prosecutor's office.

### NEXT TUESDAY.

Next Tuesday will be election day. Democrats, vote early, and see that your Democratic neighbors all go to the polls.

When did the Republicans reduce taxation in the city of Newark? The American-Tribune should tell the people when such a thing ever occurred, since it is continually howling about Democratic extravagance. It should point out some sample of Republican "economy" as an object lesson if such a thing has ever existed in our midst.

The way for every Democrat to vote next Tuesday is to put the X mark in the circle under the rooster and no where else.

William H. Anderson, Jr., is without any question one of the best Sheriffs of Licking county ever had. This statement is made without reservation and the efficient manner in which Mr. Anderson has served the county and the people, will bring to him even greater strength at the coming election than he had when he was elected two years ago for his first term. At that time Mr. Anderson ran away ahead of his ticket and since then he has made friends by the hundreds.

All must admire the way in which Mr. Anderson has managed the office of Sheriff. Always at his post of duty, ever ready to discharge any duties that may arise, courteous to all, intelligent and efficient in everything that he does, what better Sheriff could Licking county have?

The Democrats of Licking county to a man will vote for Mr. Anderson and besides these he will secure a big vote from the independent Republicans of the county.

### Republican Trust Defenders.

Hanna, Foraker and nearly all the other Republican stumbers have been defending the trusts all through the campaign. If a Republican Congress is elected next Tuesday the trusts will be more aggressive and more arrogant than ever, and with good reason. They will claim, and be justified in doing so, that the country is with them, and they will proceed to steal the \$120,000,000 of ship subsidy, for which the Republican Senate has already voted; they will forge new chains for Cuba, Porto Rico and the Philippines so that they may plunder the people of those islands with complete immunity; they will pass the Fowler-Oversight bill, intended to give the Standard Oil bank in New York City control of the banking business of the entire country; they will raise the tariff still higher on necessities of life, of the production of which they have a monopoly; and they will use their power to the full extent in every direction.

And who will have a right to complain? Surely not the people who with their eyes wide open, vote to keep the party of the trusts in power.

### "Gang" Talk

How the A.-T. would howl "gang" if the Democratic ticket had been set up by a select and exclusive few like the Republican ticket was! "Gang" is a favorite word with the refined and classical A.-T., but it has to be carefully about the use of the word in this campaign. It incites too much of a boomerang for its own sake, and the Republican candidates have all been laboring to keep the paper as quiet as possible about "gang" talk.

Judge Taylor is a lawyer of ripe experience. He has been a Democrat throughout his life, yet as an officer, he is Probate Judge for the whole people, showing no more favoritism to one class than to another. His careful and judicious management of the probate judgeship is admitted by his political enemies and his conduct as an officer of the people is altogether admirable. The people of Licking county will make no mistake in re-electing Judge Taylor, which they will do next Tuesday.

The people of Licking county should have for their prosecuting attorney a lawyer of EXPERIENCE, a man who has tried and won cases in court. Mr. Fitzgibbon has won every case that he has prosecuted since he has been in office. He is a lawyer of experience, intelligence, good common sense and integrity. Vote for Fitzgibbon.

Democrats vote for principle as well as for men. No Democrat deserving the name can endorse the principles represented by any candidate on the Republican ticket.

If money is not plenty in the centers of business and stock operations it is not because the treasury has not intervened to make it so. During the past five weeks a treasury statement says the Government has put into circulation \$97,800,000. This is probably without a parallel in the financial operations of the Federal treasury, in "coming to the relief of the market," as it is called. In other words, for Wall street speculators. This enormous sum was released by Government bonds put on deposit for deposits in banks of currency, additions to the National bank circulation and release of reserves held against Government deposits and rebates of interest.

The highest taxes ever levied in the city of Newark, before or since, was assessed by the Republican majority that got into power by means of howling "Democratic extravagance," and preaching "Republican economy." Let the A.-T. put this in its pipe and smoke it.

### MEN WHO DELIVER MAIL.

#### Great Tragedies That Line the Route of Letter Carriers.

"Tell you a story? Why, yes, I might tell a good many stories if that was in my line." The letter carrier blew a pearly wreath of smoke upward and flicked the dead ash from his cigar, says the Denver News. "Let me see. There's an old lady on my route down in Alabama who sits knitting the living day by the front room window. Every morning and afternoon when I whistle at the door of her next door neighbor she lays down her knitting and peers with a tired, eager face out of that window until I go by. She's got a boy somewhere out west. He doesn't write to her twice a year, yet twice each day the whole year through she sits there, with that anxious look, waiting, waiting, waiting. I feel a twitch at my own heart every time I pass by and see the look of expectancy fade into disappointment. Sometimes I'd give \$100 to be able to stop and give her five lines from that good for nothing boy of hers for whom she's eating 'cat her heart.'"

"That reminds me," said a younger man who heard the letter carrier's story, "of a pretty lady on my route in a Louisiana city. She's a dainty tot about four or maybe five years old. She has blue eyes like a wood violet that look a fellow straight to the heart. Some little girls can do that after they are older. This tot's mamma died six months ago, and for a month afterward she used to come tripping down the walk to meet me with a little white note in her hand, looking me to the heart out of those big trusting eyes, she would say, 'Mr. Postman, won't you please take this letter to my mamma in heaven?' I used to take the dainty missive from the wee pink hand. I couldn't tell her how far away her mamma was. One day she came without a letter, and there was pain in the great, sweet eyes. 'Mr. Postman, why won't you please tell my mamma I want some letters too.' And, boys, every day for a week I had to pass that baby with the pain in the gray line eyes, and I wondered the angels did not find some way somehow to make her baby heart understand."

Grove's Black Root Liver Pills. Made from an active principle obtained from Black Root. They act on the liver, equal to calomel and have no bad after effects. No griping, no loss of appetite. All cure chronic constipation. Price 25 cents.

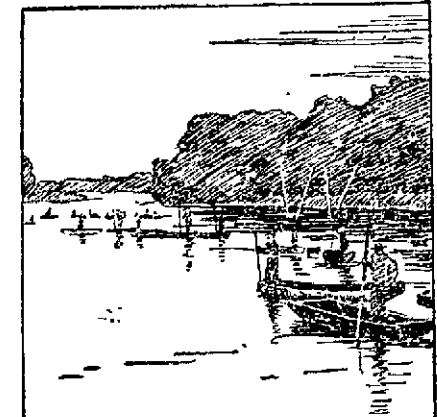

### ARKANSAS PEARL FISHERS.

#### How They Find Valuable Gems in Clam Shells.

[Special Correspondence.]

White River, Ark., Oct. 28.—It is not generally known that in this country and more particularly in this state are to be found pearl fisheries of no mean order. The industry has been cultivated spasmodically for some years, but as a rule the fishermen are so ignorant of the true value of the pearls they extract from the river bed that they will sometimes let their richest jewels go for a song.

Pearl fishing has not as yet become an organized industry, however, and when it does another order of things is to be expected. There are even now some notable fisheries managed by clever, intelligent men who are shrewd enough to keep their workers in the dark regarding the value of these gems of the water and thus reap all the profit for themselves, since the laborers consider the pearls almost worthless.

PEARL FISHERS AT WORK.

less. The toilers are of the same general type as the oystermen and clam diggers. They wear overalls or worn butternut jeans hitched over coarse cotton or sateen shirts by fragments of suspenders. Neckties are unknown to them, as are shoes. Black and white, men, women and children, they labor together under an experienced foreman, marvelling, doubtless, at the folly that induces their employers to thus invest money.

The outfit employed in the work is very simple—a flat bottomed boat and great grappling rakes similar to those used by oystermen. Simpler even than the grappling rake is a four pronged hook of metal tied to the boat with strong twine. Sometimes as many as a hundred of these hooks are attached to one boat; the more hooks there are the richer the harvest reaped.

The clams lie in the soft river mud, with their shells partly open. The hook as it touches them is gripped between the closing shells, which are still clinging to it when it is withdrawn from the water. Sometimes in the boat, sometimes at a convenient landing place, the clams are opened. Sometimes the pearls are concealed within the pulpy mass; sometimes they are visible on the inside of the shell; more often there is nothing but meat. Occasionally the pearl grows fast to the shell and has to be cut loose.

Despite the unorganized nature of the business tens of thousands of dollars' worth of exquisitely colored pearls are found and exported to all parts of the world. Some of the most valuable of these have been obtained by dealers from what are known as independent fisheries and bought for a ridiculously small sum. These independent fisheries are often conducted merely as a pastime by the natives of the district, to whom profit is a secondary consideration. In speaking of them a dealer who has had years of experience said recently:

"The farmers about here like to take a row after sunset. They hang a fishing line over the stern in hopes of picking up a breakfast and rake for clams over the bow. Many boys do it to earn a quarter or half dollar, and some of them are pretty good judges of pearls, but have no idea of their commercial value. A famous gem called the American was found by a shrewdly simple lad. He knew it was a fine pearl and made up his mind to set a high price on it. As he made his way home across the bottoms a wild dealer lying in wait bargained for half a dollar, but the boy had set his price at the high sum of a silver dollar and would not give in. Now it has changed hands for more than twice \$10,000. I should say."

There are as many as seventy-five varieties of pearl bearing clam shells, with marked differences in shape, exterior finish and size, and often an experienced pearl fisher can tell from the appearance of the shell what manner of pearl he is likely to find inside. All pearls are by no means valuable, and indeed some are utterly worthless. Color, texture and weight decide their value. American pearls are noted for beautiful prismatic coloring. The rarest is the black pearl, one of which from the bed of the White river is now owned by a Chicago woman. It weighs eighty-nine and a half grains, and in color it reminds one of the velvet depths and shades of the black pansy.

Next to the black pearl in value comes the rose tinted, then the ivory, then the faint blue. An oddity sometimes found is called the baroque. It is a kind of irregularly shaped pearl with a rough surface and grows to a large size. As many as seventeen baroque pearls have been found in one clam. Although not so valuable as the pearl proper, the baroque commands a good price, according to luster and coloring. Incidental to the pearl industry is the button factory. One species of clam shell makes a durable pearl button, and when a bed of this particular sort of shell is discovered a button factory is soon established on a floating structure anchored where the supply is abundant. When the field is exhausted, the factory is promptly moved to another bed. Sometimes as high as \$20 a ton is paid for the button making shell.

### FULL TEXT Of the Platform Adopted at the Democratic State Convention.

In state convention assembled, we, the Democrats of Ohio, hereby acknowledge and declare our continued allegiance to the Democratic party of the nation and on national issues reaffirm and endorse the principles laid down in its last national platform adopted at Kansas City, and which was fully and ably represented in the presidential campaign of 1920 by William Jennings Bryan. Regarding those principles as opposed to imperialism and colonialism, as opposed to government by injunction, as opposed to trusts and trust-fostering tariffs, as opposed to financial monopoly and as opposed to all other legalized monopolies and privileges, we condemn every effort to repudiate or ignore them.

In state and municipal affairs we pledge our party to a faithful application of those Democratic principles to the end that the burdens of taxation may be equalized and home rule and local self-government be established and preserved.

#### REPUBLICANS ARRAIGNED.

Under the long continued control of the Republican party in this state, monopoly has been fostered and protected; the farmer and the small home owners have been burdened with excessive taxes that the beneficiaries and favorites of that party might be permitted to escape their just share of the public burdens; our public institutions have been wastefully and inefficiently managed and in them scandals and cruel wrongs have been practiced upon the defenseless wards of the state; the farmers and small shippers continue to suffer from unjust discrimination at the hands of unregulated monopoly; the fine system of municipal government has been wrecked and thereby producing a spirit of insecurity and unrest in all public affairs. The people can no longer trust the administration of their affairs to a party thus recklessly devoted to interests adverse to the public welfare. As a more specific statement of our principles upon these and other public questions we declare:

#### TAXABLE PROPERTY.

1. That all taxable property should be appraised by assessing boards which should be in session for at least a part of each year and whose proceedings and deliberations should be open to the public; that power be given to employ a representative to present the interests of the public in hearings before these boards and that in making assessments all property should be appraised at not less than its saleable value.

2. That the present laws for assessing the property of steam railroads and other public service corporations should be so changed as to compel the assessment of those properties at not less than their saleable value as going concerns and to prevent their evasion of just taxation.

#### CLASSIFICATION.

3. That to prevent evasion of state taxes by discriminating valuations, a separation of the sources of state and local revenues should be made. And to that end, we heartily endorse the constitutional amendment now pending before the people and to be voted on next year, which will permit classifications of taxable property.

4. That all public service corporations should be required by law to make sworn public reports and that the power of visitation and examination over such corporations should be given to the proper auditing officers to the end that the true value of the privileges had by such corporations may be made plain to the people.

#### FREE PASSES.

5. That the acceptance of free passes or other favors from railroads by public officers or employees should be adequate ground for their removal from office.

6. That the denial of the right of free speech and peaceable persuasion in times of labor disturbances is a denial of the right of free speech, and that government by injunction if persisted in, will wreck the liberties of the people.

#### MUNICIPAL CODE.

7. That we demand the enactment of a code which provides absolute home rule for municipalities which shall include the right to establish the merit system with civil service under which that system, as now in use in fire and police departments may be strengthened and perfected and be extended to other municipal departments particularly to water and lighting plants now operated by municipalities and to street car and all public service plants that may hereafter be established under municipal ownership and operation.

#### HANNA, COX AND FORAKER.

8. That we condemn the vicious and corrupt bargain between the boss of Cincinnati and Ohio's United States Senators to force through the legislature a code that will foist upon the municipalities of Ohio Cincinnati's form of government in order that the power of its boss may be preserved on one hand and on the other hand will perpetuate existing street railway franchises which Ohio's United States Senators represent.

9. That the municipal code should protect the public against all clauses which may be clandestinely placed therein in the special interest of public service monopolies by requiring that all ordinances granting, renewing, extending or modifying franchises shall be inoperative until confirmed by a majority vote of the people of the municipality, and we are unalterably opposed to the granting of any perpetual franchises.

#### SENATORIAL NOMINATIONS.

10. That until United States senators are required by amendment to the federal constitution to be elected by popular vote nominations of candidates for United States senator should be made by state conventions. And we hereby direct that in the official call for the next Democratic state convention of Ohio there be embodied a clause providing for the nomination at that convention of Democratic candidate for United States senator and a clause providing for action by said convention, upon all amendments to the state constitution then pending before the people.

Upon these principles of home rule, and just taxation, and to the accomplishment of these purposes in municipal and state affairs, we invite the co-operation of all citizens of Ohio, regardless of their party affiliations on national questions, hereby solemnly pledging our candidates to the faithful observance of this declaration both in letter and spirit.

#### NOTICE.

All persons who engage in Hallow E'en tricks will take warning that injury or destruction of property will be severely punished. Extra police will be put on to keep order. 23-31.

C. C. FORRY, Mayor.  
F. H. VOGELMEIER, Marshal.

## In the Field of Sport.

### SATURDAY'S FOOTBALL GAMES.

**Local.**  
Denison vs. Western Reserve, at Cleveland.  
Ohio Medics vs. Notre Dame, at Neil Park, Columbus.  
Ohio State vs. Kenyon at University Field, Columbus.  
East Newark vs. Denison Pan Handle team, in East Newark.

**Eastern.**  
Yale vs. West Point at West Point.  
Princeton vs. Cornell at Princeton.  
Harvard vs. Carlisle Indians at Cambridge.  
Pennsylvania vs. Columbia at Philadelphia.

**Western.**  
Michigan vs. Wisconsin at Chicago (afternoon).  
Chicago vs. Beloit at Chicago (morning).  
Illinois vs. Indiana at Urbana.

**Saturday's Great Game.**  
The entire football interest of the middle west is now centered in the game between Michigan and Wisconsin to be played Saturday, on Marshall Field, Chicago, which is generally conceded to be the contest which will decide the championship. Both teams have been training all season with this game in view, and they are now on edge for the contest.

The sale of seats for the game is unprecedented, the sections reserved for the students of both universities having all been sold. Several of the prominent western teams have reserved sections, and will view the game, including Chicago, the only other team that can claim the class of either the Badgers or Wolverines Northwestern, Beloit and Purdue.

Coach Phil King, the great Princeton player who is coaching the Wisconsin team says his men are in the best shape possible, and will have no excuses to offer in case of defeat. Yost of Michigan has been strengthening the Wolverine defense and while not inclined to make predictions, has an air of confidence which bodes a victory for the Ann Arbor players.

We can see nothing to the game but "Michigan." Those hurry up formations on offense we do not believe can be stopped short of a touchdown by any team in the country.

The Badgers also play an aggressive game, and should Michigan's defense weaken at any time are sure to score. One danger to Michigan's game will be that Wisconsin will score one or more goals from field. Captain Juneau of the Badger eleven has been constantly practicing this stunt, and seldom misses an attempt inside the 40 yard line. Should he see that Yost's men can hold his team he will undoubtedly attempt to drop a goal every time he comes within striking distance. The eyes of all football lovers in Newark are turned toward Chicago for Saturday's game, which we predict will be won by Michigan by a safe margin.

### Michigan's Great Halfbacks.

The Michigan team undoubtedly has two of the greatest halfbacks in Heston and Heston that are now playing football. As ground gainers around the ends they have no superiors and few equals. Their styles of play are different but equally effective. The kind of play which will stop Heston will not stop Heston, and vice versa. Heston, reputed to be one of the best halfbacks in the West, runs close behind his interference, perhaps as far as the scrimmage line. Then he suddenly breaks through the men running ahead of him and goes down the field with a swinging run. His deceptive swing makes it appear to opposing tacklers that the famous half back is about to dodge in the direction of the foot which he happens to be stepping upon.

Hernstein uses a different method of following his interference. His training as a sprinter enables him to do this. At times "Hernie" almost stops running while the man in front of him butts into the opposing tackler. Then suddenly before anyone can run in behind him, he springs forward like a 100 yard dash man, to run behind another of his team mates. When most of the interference has been knocked to pieces, and but one or two are left Heston springs once more, and usually for a good dash, toward the goal. Any tackler whom Heston sees shoving his way into the mass of his interference is given the "straight arm." Heston's arm when straightened out is as stiff as a

piece of cordwood. The muscles stand out in knots. With it he shoves aside every man whose head comes in reach. Heston has a better "straight arm" even than Heston.

### East Newark plays Saturday.

The strong football team representing the Pan Handle shops, from Denison, will play the East Newark Athletic club team Saturday afternoon at the East Newark grounds, the game being called at 2:30 o'clock. This promises to be one of the best games played here this season, as the visiting team will present a strong front, averaging over 150 pounds. They played a scoreless game with the strong Pan Handle team of Columbus and defeated Newcomerstown 5 to 0. Newark's team is in the best of shape for the contest which they expect to win, but not without a hard struggle.

East Newark will present the following line up:

Center, Evans; left guard, Davis; right guard, Mullinix; right tackle, Laly; left tackle, Clark; right end, Foos; left end, Fisher or Gore; quarterback, B. Martin; left halfback, Harl; right halfback, Graham; fullback, R. Martin.

### Denison vs. Western Reserve.

Denison's football team goes to Cleveland Saturday, where it will have its work cut out by the strong team of Western Reserve, which is figured by many as a championship quantity.

The Cleveland school has played four games, winning three, losing to Washington and Jefferson by a score of 17 to 0. Ohio Medics beat Case by the same score, and W. & J. and O. M. U. scored a touchdown each at Columbus last Saturday, so that Case and Western Reserve figure about equal in strength, each having a chance for the state championship. Denison expects to make a good showing Saturday, and may spring a surprise.

### GOLF CLUB OFFICERS.

At the meeting of the Newark Golf Club held on October 30, the following officers were elected for the coming year:

President, R. O. Austin.  
Vice President, Miss Helen Goldsborough.

Secretary, J. A. Tait.  
Treasurer, W. E. Painter.  
Asst. treasurer, Miss Ruth A. Speer.  
Executive Committee, the officers of the club and Messrs. W. C. Dickerson and F. H. King, and the Misses Anne Fulton and Emma Helsey.

Links committee, M. M. Gillett, F. M. Black, Frank C. Bartholomew.  
Committee on green, W. E. Painter, Lawrence Kreig, Grace E. Gorby, Rose McLain.

Committee on entertainment, Mrs. F. H. King, Frank P. Kennedy, Mrs. Frank Kennedy, T. M. Edmiston.

Many new members were proposed. Considerable enthusiasm was exhibited, showing that the game of golf has taken a firm foothold in Newark.

### Plan to Restore Whittier's Home.

The Whittier homestead at Haverhill, Mass., which was damaged by fire recently, is to be restored on exactly the old lines, says a Boston special to the New York Times. The ancient furniture and china of the Whittier family, much of it antedating the birth of the poet, are safe, with not an article broken. The desk of his grandfather, on which Whittier wrote his first verses—and, as it happens, also the last poem he ever wrote—will go back to the old corner where it stood two generations, and perhaps three, before his birth. The greatest care will be taken to have everything restored in exactly the fashion of the olden time.

### Novelty For Lounging Rooms.

The newest wall treatment for lounging or smoking rooms is in the Japanese fashion of split bamboo. Not only can this be applied in all sorts of individual and unique ways—diagonally, in paneling, figures, etc.—but it has the increased advantage of being easy to keep clean.

### After the Coal Strike.

D'ye hear that rattlin' in the cellar?  
Jim's a shovelin' on the coal.  
D'ye hear that rattlin' up the chimney?  
The heater's goin' to the cellar!  
Sounds so strange, yet so familiar,  
I can scarce believe it's true.  
Come here, children; hold your hands here;  
Feel it comin' up the flue?  
Gracious me, it makes me happy!  
Bring your chairs and sit around.  
Feels just like it did last winter;  
Sounds just like it used to sound;  
Same old room, cozy corner,  
Same old warm and cozy rug.  
Same old cradle over yonder;  
Same dear baby just as snug.

Jane, you sit there by the table;  
Tom, come sit on mother's knee;  
John, go out and get the apples;  
Hurry, see how long you'll be.  
Rob, run down bring up your daddy;  
Tell him that his pipe is ready;  
Tell him that his chair is ready;  
And that old Jack Frost is killed!  
—P. Q. Leach in Philadelphia Record.

## NATURAL GAS

PIPE LINE LEADING FROM THE HOMER FIELD.

Company Signs Contract to Buy Gas From the Utica Home Company. Gas Notes.

The Advocate recently published a statement about the Licking county gas field showing the distribution of the wells in the territory which is 13 miles from north to south and 5 miles from east to west. The field now has 69 producing wells; dry holes 4. When wells now being drilled, and those where derricks are up or being built, are finished, there will be a full 100 in the field. The cost of a well averages about \$3,500. Depth drilled, into Clinton rock, nearly 2,300 feet. Casing used, 6 1/2 inch.

Pipe lines built and under construction from the field are the following: One to Columbus, by the Central Ohio company, nearing completion. One to Zanesville by the Ohio Fuel Supply company, nearing completion. One to Fostoria and other north Ohio cities, by the Northwestern (Logan) company, nearing completion for much of the distance. One to Mt. Vernon by the Ohio Fuel Supply company, completed. One to Newark by the Everett company, in operation. One to Granville by the Winn company, in operation. One to Newark by the Peoples' Gas company, which has a franchise in Newark, just begun. One to Coshocton, Millersburg, Wooster, Dresden and other towns in that direction by the Buckeye State Gas and Fuel company, which buys gas from the Utica company, just begun. Besides these various lines which start from this field, there is the original Logan line from Sugar Grove to Mt. Vernon, passing through Utica, into which the Logan company have turned the product of a lot of wells here. One other line has been projected, to lead from Utica to Lorain, Sandusky, and other cities, by the Northern Ohio company.

The Buckeye State Gas and Fuel company of Coshocton, capital stock \$200,000 was incorporated Saturday by T. C. Jones, F. P. Hills, Dwight E. Sapp, Frank L. Beam, Henry D. Beach, George A. Hay, Frank E. Pomeroy, Sam H. Nicholas and John C. Fisher. Thursday's Utica Herald says that this new company has signed a contract to buy its gas from the Utica home company. Work has already been commenced for the construction of a pipe line from the Utica wells to Coshocton, Dresden, Millersburg, Wooster, Shreve, and several other cities. At Coshocton the company owns the artificial gas plant, the city pipes of which are to be utilized with others in the distribution of the natural product. The Utica company is simply to furnish gas at the wells and is to receive as remuneration a stated proportion of the gross receipts from the sale of gas to consumers.

A corps of engineers, directed by Mr. Maxon of the Coshocton Gas company, started last Friday to work west on the pipe line, to meet another corps who are working east from Utica. The engineers in charge of the work are Messrs. Ashcraft of Mt. Vernon and Williams of Wellston.

### RECLAIMING IRELAND.

United Effort to Revive Almost Forgotten Industries.

To make Ireland a desirable country to inhabit and thereby not only check the outflow of her people, but also encourage those already abroad to return, is the object of the art industrial settlement opened in Dublin the other day, says the St. Louis Globe-Democrat. The heads of the settlement will be Miss Evelyn Gleeson of the Irish Literary society of London, Miss Lily Yeats and Miss Elizabeth C. Yeats, daughters of the Irish portrait painter, J. R. Yeats. These young women are ardent Irish patriots and personally talented. Mrs. Gleeson is a powerful writer on pro-Irish themes. Lily Yeats has made a reputation in London as a teacher of art needlework. Elizabeth Yeats is a gifted artist.

They have taken a large and beautiful house in Dublin and intend to convert it into a center both of propaganda and practical work for the industrial rebuilding of Ireland, particularly as regards art industries. In their scheme for rebuilding Irish industries the Misses Gleeson and Yeats have the hearty sympathy of Irish patriots everywhere. They will add one more active force to the large number that are now striving to bring Ireland back to the path of national greatness.

Marconi reached Cape Breton today to arrange wireless telegraph apparatus between England and Nova Scotia.

## AGRICULTURAL NOVELTIES.

White Oranges, Seedless Lemons and Grapes an Inch in Diameter.

In a few years white oranges may grace the American dinner table, says the Washington correspondent of the New York Evening Post. One of the explorers of the agricultural department discovered this freak of nature in his rambles along the shores of the Mediterranean some months ago, and brought some cuttings from the tree to the United States. These were carefully grafted on an ordinary stock at the department grounds and are now three feet high. A cutting of this plant was sent to Santa Ana, Cal., to be tried in that climate. A couple of years now will see the first fruit. If it proves of fine flavor, cuttings will be widely scattered, and in time the white orange may be as plentiful as the seedless orange.

A seedless lemon is another freak. It has been brought in from Corfu, and if it proves successful will make things easier for the lemonade man.

The department has a number of new walnuts from the Mediterranean, and a lot of new and queer shade and foliage trees from China, Japan and out of the way corners of the earth. One of the finest shade trees in Washington, the Ohingko, comes from China, having been brought by the department, and much is anticipated from the latest discoveries.

A new kind of grape, each an inch in diameter, growing in bunches a foot in length, is another of the discoveries of the department. A young vine was recently shipped to California to the Santa Ana experiment station for trial purposes. This plant was found in the mountains of Mexico. It is herbaceous, dying down in winter and making new wood every season. It is said to be only fairly good to eat, but may profit by cross breeding.

### NOVEL STORM COAT.

Handsome Garment For the President When He Visits Kansas City.

When President Roosevelt did not come to Kansas City, says the Journal of that town, he missed the gift of one of the handsomest storm coats that a man has put on his back since the days when buffalo robes became extinct. The coat will still be his when he comes after it, but it is hung up as an additional inducement to secure a visit to Kansas City from him.

The coat is made from one superb hide of a Galloway steer. This is very fine, with long, silky hair covering its shiny black surface. It is lined throughout with quilted brown satin, and the collar, cuffs and front are faced with real beaver fur. The material, so far as the Galloway part is concerned, is said to be as fine as any ever seen. The steer was especially picked out for this purpose, and the greatest care was exercised in killing him not to mar the hide. It was so well tanned that it is as soft as a piece of cloth, and the long black hair gives the garment a stunning appearance.

The Galloway is about the only breed of cattle from which such coats can be made, because its hair is the only one that is long enough. The cattle originated in northern Scotland, and always retain their long, fine coats.

### FINE BUFFALO HERD.

Game Commissioner Harris' Plan to Protect Them.

A herd of from forty to fifty buffaloes ranges in one of the most inaccessible regions of Colorado, says the New York Tribune. Its existence has been known to a few for years. Game Commissioner Harris is one of these. This herd has never been counted in computations of the number of buffaloes left alive. This band, of which the commissioner has known for nearly twenty years, is of mountain bison. The animals are in prime condition, owing to excellent pasture and uninterrupted life. Among the hidden herd is a great bull of enormous bulk, thought to be the largest bison on the continent. The home of the herd is a beautiful little valley of about forty thousand acres in the very heart of the mountains. It is entered by a narrow, almost hidden pass. It is the determination of Game Commissioner Harris that no one shall learn of the location of the herd until the government has set aside all the land in the valley and around it for a great preserve, similar, on a small scale, to Yellowstone park.

### Cocds Offer Prizes For Tell.

Displeased with the discordant shouts of the rooters at the football games on Marshall field, the cocds of the Women's union of the University of Chicago have offered a prize for the most musical yell that can be devised by any of the women students of the university, says the Chicago Tribune. The contest is open to all cocds. The prizes will be awarded on Nov. 1. The first prize of \$10 will be awarded for the best composition presented, provided the composition is satisfactory. The second prize of \$5 will be awarded for the best composition whether it is deemed satisfactory or not. The contest is under the charge of Miss Marion Talbot, dean of women at the university, who is chairman of the committee on musical cheer.

### Kruger May Go Back to Africa.

An Amsterdam letter to the London Express states that in Mr. Kruger's intimate circle of friends there is a movement on foot to send him back to South Africa. This is approved of and assisted by the ex-president's family. Mr. Kruger has given notice that he will vacate his present residence in November, but has not yet made up his mind whether he would accompany the general home if allowed to go. It is understood that the general on their next visit to England will sound proper quarters on this point.

## THE COURTS.

AMSPAUGHER DIVORCE CASE IS HEARD.

Session of Court Monday When Decisions Will be Announced—Assignment of Cases.

The case of William Moore vs. Thos. Maberry was tried to the Common Pleas court Friday. The action was brought to restrain the collection of a judgment on the ground that it was obtained by fraud. The case was heard on a motion to dissolve the temporary order of injunction heretofore allowed. J. D. Jones for the motion to discharge; Smythe & Smythe, Bolton, contra.

Jacob Ampaugh vs. Elizabeth Ampaugh, an action for divorce on the ground of wilful absence for over three years. A portion of the testimony was heard in this case to the Court Friday. J. D. Jones.

The Newark Paper Co. vs. The Providence Washington Insurance Co. leave given to plead. Poyehon; James.

A. G. Wyeth vs. John L. Lewis, et al. judgment of settlement. Flory & Flory; James, Fulton & Fulton.

Rachel Pryor vs. Hugh Pryor, temporary alimony allowed in the sum of \$25. Demurre to petition submitted. Smythe & Smythe; Bolton.

R. L. Kumminger vs. Samuel Cohen, et al. judgment of settlement at costs of O'Dell Commission Co. Kibler & Kibler, Hunter; Bolton, Shay & Cogan.

There will be a session of court held on Monday next at which an assignment of cases will be made for trial to the petit jury. Judge Seward will also announce several decisions.

### SUIT FOR SLANDER.

Cora May Brooke, by her attorney, T. W. Philipps, has commenced suit in the Common Pleas court against John Juhl for \$10,000 damages for slander.

### Real Estate Transfers.

Irey E. Burton and M. H. Burton and wife to L. J. Burton, 20 feet off the west side of lot 224 in Greener, Jones & Morris addition to the city of Newark, \$650.

James W. Collins to Lillie B. Kirk, the south half of lot 26 and the south half of lot 27 in F. Connell's subdivision of a portion of outlots in Wm. C. Maholm's addition to Newark, \$275.

Wm. B. Kehoe and wife to Catherine Rowe, parts of lots 873 and 874 in Eower's addition to Newark, \$900.

John C. Elliott to Benjamin R. Elliott real estate in Newton twp., \$1

### MARRIAGE LICENSE.

Chas. E. Barrett and Phila O'Baron.

## CONDENSED NEWS.

At St. Louis Edmund Bersch, former member of the house of delegates, was found guilty of perjury today in connection with the grand jury's investigation of alleged hoodlums.

Rev. Mr. Collins the Baptist minister whose stepdaughter was accused of dancing and who objected to said dancing, and whose wife and daughter left him because of the commotion the dancing caused in the congregation has resigned at Lorain, Ohio.

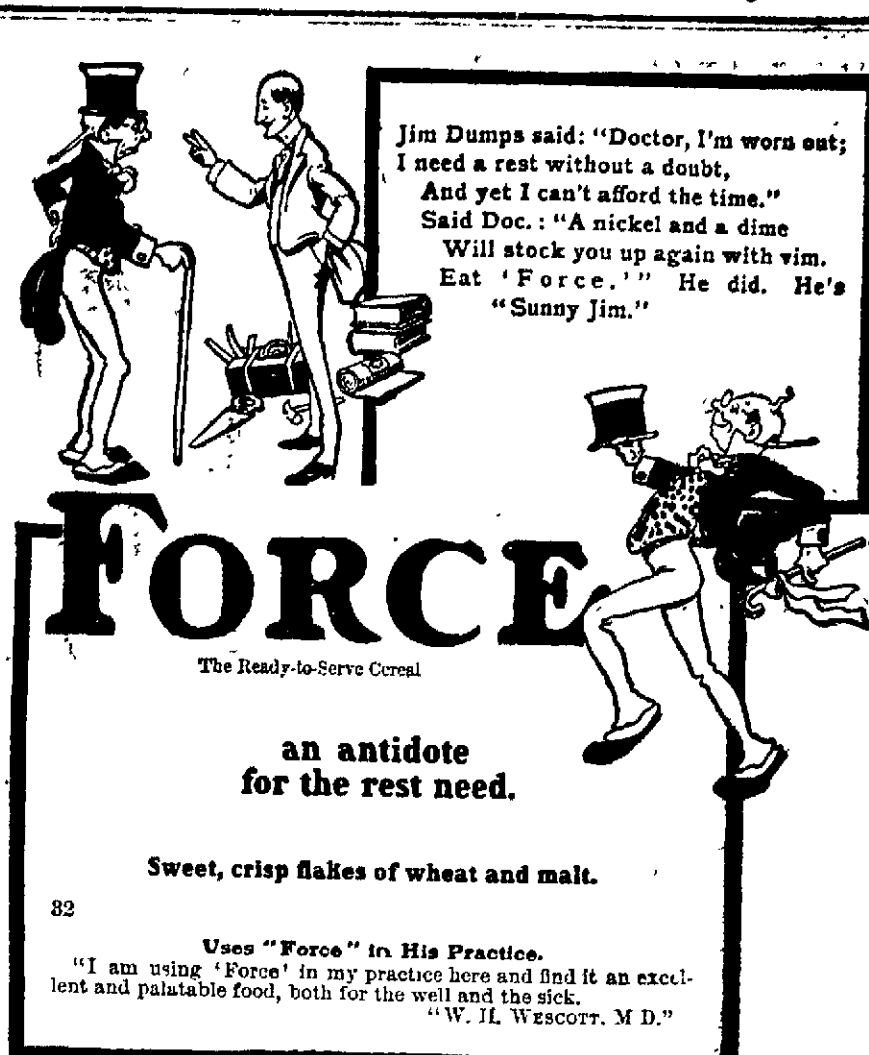

While passing a store in New York Wm. Brewster saw a flashlight picture of a theatre. He thinks he sees his wife sitting in the theatre with another man and has therefore sued for divorce.

Two anarchists were each sentenced to 8 years imprisonment at Patterson, N. J., for rioting during the silk dyers strike.

Siwash Indians from Puget Sound and British Columbia do most of the hop picking in Western Washington. The growers pay \$1 a box and the average buck can earn \$2 a day.

The new German regulations for fire insurance companies fill 24 pages of a consular report. A number of changes made are of interest to American companies doing business in that country.

The head and antlers of a mammoth specimen of the extinct giant Irish deer have been found in a bog near Limerick. The horn measured nine feet six inches from tip to fin, and the head is the first ever discovered.

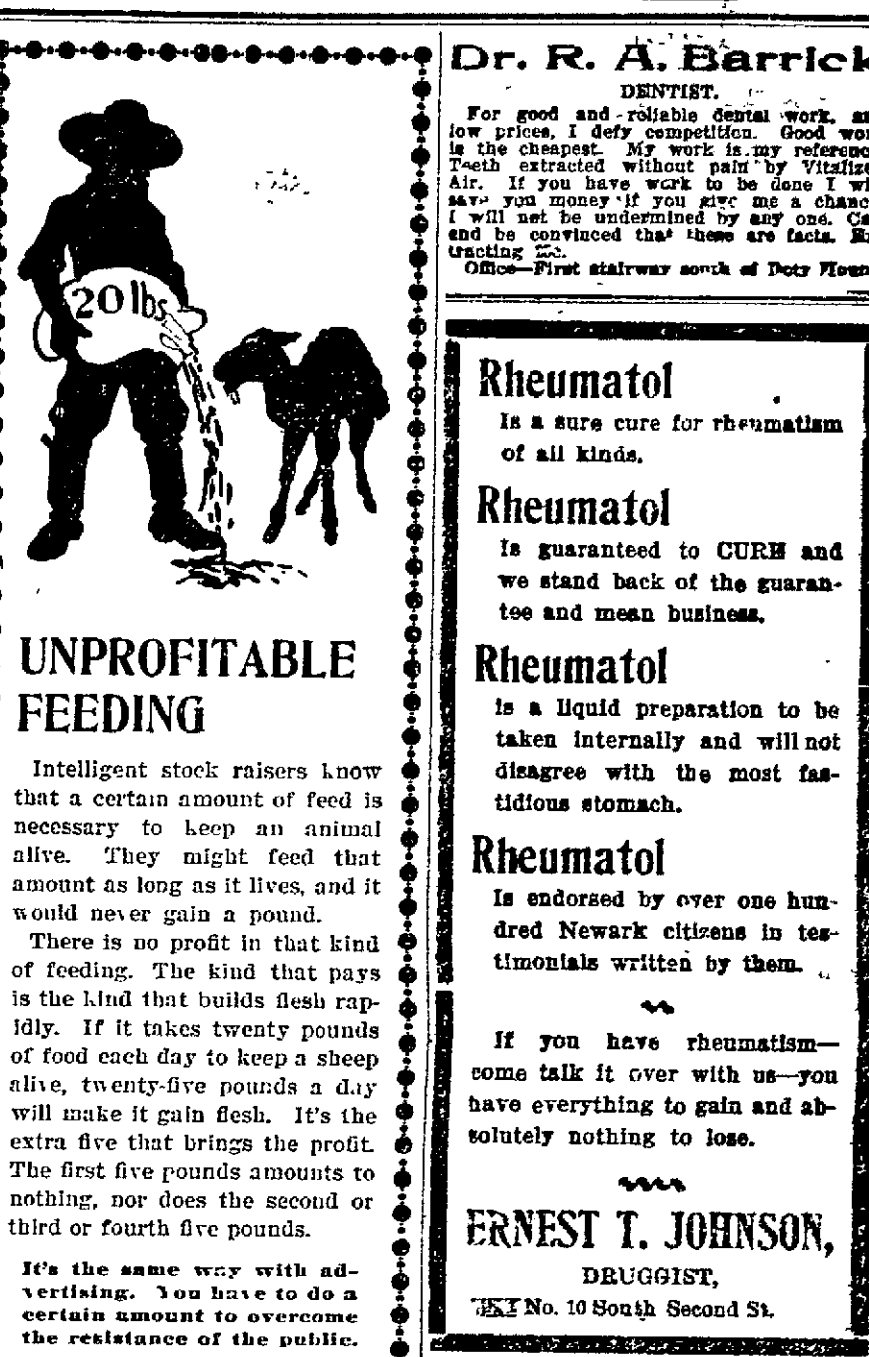

Jim Dumps said: "Doctor, I'm worn out; I need a rest without a doubt, And yet I can't afford the time." Said Doc: "A nickel and a dime Will stock you up again with vim. Eat 'Force.'" He did. He's "Sunny Jim."

FIND THE SWEETHEART.

## DIVORCE

IS WANTED BY J. V. SPERRY OF NEWARK

On the Ground of Neglect of Duty—Action for Divorce Commenced at Mansfield.

A petition for divorce has been filed in the probate court by Bricker & Workman attorneys for J. V. Sperry, who asks divorce and alimony from Arminda C. Sperry, of Newark, says the Mansfield Shield.

Sperry says they were married in Newark, October 27, 1871, and that two children were born of the marriage, viz: Grace V. Sperry, aged 29 years, and Reese A. Sperry, aged 24 years.

The causes given are that for the last six years the defendant has refused to cohabit with the plaintiff. On February 1 1900, the defendant left his home on a farm near Sunbury, Delaware county, O. During the following winter he suffered from the grip, but his wife neglected him entirely.

The defendant is the owner of property in Licking county to the value of \$10,800, has a life interest in an estate in Licking county valued at \$11,760, and is the owner of an estate in Delaware county valued at \$9,000, which was given to her in order to pacify her. On this last named property the plaintiff holds a lease the only property of which he is possessed.

For general debility and prostration Walther's Peptonized Port will do wonders. Prove it by trial.

## HYPNOTIZED

And Forced to Sign Checks Charge Made by a Girl in a Chicago Court.

Chicago, Oct. 31.—Mary Aarvold, suffering from the effects of the carbolic acid which she had taken, was face to face with Hattie Kohlman, who, she said, caused her, by the use of hypnotic power, to forge the name of her employer to checks.

After she had finished telling Justice Prindiville at the Harrison Street Station, the story of how she had drawn various checks and signed the name of John Plus to them, and had heard her statement denied by Miss Kohlman, she fainted in the arms of a detective and it was necessary for the police to carry her from the courtroom.

Both Miss Aarvold and Miss Kohlman were held to the grand jury in \$800 bond. Miss Aarvold told a long story of how she had first met Miss Kohlman in a dance hall at North and Spaulding avenues three years ago. "Her power drew me in come way to her. At times I could hate her, and then again it seemed that I could not resist her," said Miss Aarvold to Justice Prindiville.

On the desk of the court lay several blue checks. All were said to have been forged by Miss Aarvold, and the girl, with tears streaming down her cheeks, told of meeting Hattie Kohlman and giving her \$50 to pay her board at the Sherman House.

Miss Kohlman declared that Miss Aarvold had given her little money, and she did not know how the girl obtained the large sums of money that were in her possession at times.

Two hundred and seventeen lions have been born in the Dublin Zoo during the last 70 years.

## A Negro Bishop's Advice.

Bishop R. W. Arnett of the Pittsburgh A. M. E. conference in his farewell address to the young ministers advised them to pay strict attention to their own wives, says a dispatch from Williamsport, Pa., to the New York World. "When you marry," he continued, "and you do to church on dark nights, have but one church and let your wife enjoy that light with you. Do not allow another man's wife to have the light and your's to walk in the dark or you will soon have trouble." The bishop also advised the young men to learn trades and added, "Strive to feed your brain with book learning and cease playing the game with a two dollar bat on a two cent ball."

## Cure For Whooping Cough.

Dr. C. Leuniaux, a young Brussels physician, has discovered a serum that cures whooping cough, says the New York American. The serum is injected under the skin in the abdominal region and is quite harmless. The first effects of the serum are apparent in forty-eight hours. Not only does the application produce an early cessation of the distressing fits of coughing, but by it the malady can be cured in from eight to ten days.

## MASONIC MEETING

For Installation of L. P. Schaus as Grand Junior Warden Held Thursday Night—An Interesting Ceremony—Banquet Followed.

One of the most important, impressive and enjoyable Masonic meetings ever held in Newark, was that of Thursday evening, October 30, in the lodge room of Acme Lodge 534, M. & A. M.

Last week at Columbus Hon. L. P. Schaus of this city was elected R. W. Grand Junior Warden of the Grand Lodge of Ohio, F. & A. M. As he was not present at that session, being ill at his home in Newark, the Grand Lodge ordered his installation in Acme Lodge of this city, and Past Grand Master, M. W. Bro. William Cunningham was designated as installing officer.

The evening's meeting began with the opening exercises of Acme Lodge, Bro. J. L. Worth, W. M., presiding. The announcement of the order of the Grand Lodge was made by Worshipful Master J. L. Worth, and Past Grand Master, M. W. Bro. W. M. Cunningham was announced as installing officer, and W. Bro. Albert P. Crayton, District Lecturer, as Grand Marshal.

The installing officers were then received with the usual Masonic honors.

The Secretary, C. L. H. Long, was instructed to read the official communication from Grand Secretary, R. W. Bro. Hon. Jacob H. Bromwell of Cincinnati.

The Worshipful Master then announced that Junior Grand Warden-elect, R. W. Bro. L. P. Schaus, a member of Acme lodge was in attendance and that Acme Lodge 534 was ready to comply with the order of the M. W. Grand Lodge of Ohio, and presented the gavel to M. W. Bro. W. M. Cunningham, who then assumed charge of the ceremonies and directed the Grand Marshal to present the Junior Grand Warden-elect.

Grand Marshal Crayton then conducted Bro. Schaus to the east, and presented him in the following words: "Most Worshipful Grand Master By order of the Grand Lodge of Ohio, I have the honor to present R. W. Bro. Lewis P. Schaus for installation, who has been duly elected R. W. Grand Junior Warden of the Grand Lodge, Free and Accepted Masons of Ohio, for the coming year."

After congratulatory remarks, the following obligation pertaining to the

## BRAIN FOOD

Is of Little Benefit Unless it is Digestible.

Nearly every one will admit that as a nation we eat too much meat and too little of vegetables and the grains.

For business men, office men and clerks, and in fact everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful.

Only men engaged in a severe outdoor manual labor can live on a heavy meat diet and continue in health.

As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruit and vegetables should constitute the bulk of food eaten.

But many of the most nutritious foods are difficult of digestion and it is of no use to advise brain workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years experience have proven Stuart's Dyspepsia Tablets to be a very safe, pleasant and effective digestive and a remedy which may be taken daily with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ but only on the food eaten. They supply what weak stomachs lack, pepsin diastase and by stimulating the gastric glands increase the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion which means perfect health.

There is no danger of forming an injurious habit as the tablets contain absolutely nothing but natural digestives: coenzyme, morphine and similar drugs have no place in a stomach medicine and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies. Ask your druggist for a fifty cent package of Stuart's Dyspepsia Tablets and after a week's use note the improvement in health, appetite and nervous energy. 10-29 & 31-11-37

office was administered to the Junior Grand Warden-elect:

"You do solemnly promise in the presence of Almighty God and this Grand Lodge, that you will to the best of your ability, faithfully perform all the duties incumbent upon your office; that you will conform to the constitution, laws, rules and regulations of the M. W. Grand Lodge, and that you will enforce strict obedience to the same from all subject to your authority."

The Junior Grand Warden replied, "All this do I promise, God being my help."

Installing Officer M. W. Bro. W. M. Cunningham then delivered the following charge:

"Right Worshipful Brother, Lewis P. Schaus, the office to which you have been elected is one of high dignity and may become one of great importance, for in the absence of your superior officers from the communications of the grand lodge, or from the jurisdiction, you are legally invested, for the time being, with the powers and prerogatives of the Grand Master. It is therefore necessary that you should be fully prepared to assume any position devolving upon you in the discharge of the duties of your office. It affords me great pleasure to invest you with the jewel of your office—the plumb admonishes us to walk uprightly in every station—the wreath of laurel with which it is enclosed designates it as the insignia of an honored office of the grand lodge; the south—your station—is the symbol of Truth in Light, and the symbolic color of your station, is blue and denotes beauty, fidelity, fraternity, friendship and divine truth and should cause you to seek to be endowed with that divine truth, which is so essential to the faithful discharge of every duty, and enable you to fill the distinguished position to which you have been elected, with honor to yourself and credit to the fraternity. LOOK WELL TO THE SOUTH."

The brethren arose to their feet, and after conducting the Junior Grand Warden to his station, the Grand Marshal, by order of the presiding officer, made the following official proclamation:

"By authority of the Most Worshipful Grand Master of the Most Ancient and Honored Fraternity of the Free and Accepted Masons of the State of Ohio, I proclaim that R. W. Brother Lewis P. Schaus, Grand Junior Warden of the M. W. Grand Lodge of Ohio, is now duly installed. This proclamation I make from the East (flourish of trumpets), from the west (flourish), from the south (flourish)."

Response by brethren, "Amen. so mote it be."

Brother Schaus upon assuming his station made a few remarks appreciative of the honors accorded him.

After an address by Installing Officer M. W. Brother W. M. Cunningham, letters of congratulations from prominent Masons were read to Mr. Schaus by the secretary, and a recess was taken during which social congratulations from the brethren present were extended to R. W. Brother Schaus.

By request of the Master of Acme Lodge Grand Marshal R. W. Brother Crayton formed the procession to the banquet hall in the following order: M. W. Brother Cunningham, as toastmaster, Brother J. C. Schindel as R. W. Grand Chaplain, W. Brother J. L. Worth and R. W. Brother L. P. Schaus, M. I. Brother D. C. Winegarner, W. Brother A. A. Stasel, Worshipful Master of Newark Lodge No. 97, presiding officers of visiting lodges, officers of Acme Lodge, visiting brethren, brethren of Acme Lodge, followed by the deacons and stewards of Acme Lodge.

The brethren were seated at the tables in the order designated and divine blessing was invoked by Brother J. C. Schindel. After all had given attention to the ample menu, the usual sentiments were proposed and responses made by Chaplain Schindel, who addressed the brethren on the duties and character of Masons and the antiquity of the order. D. C. Winegarner, M. I. Grand Master of the Grand Council of Ohio, spoke in behalf of the Grand Council; A. F. Crayton, District Lecturer, congratulated Newark upon the unusual honors that were hers in the

# Cod Liver Oil Without Grease

Hagee's Cordial of Cod Liver Oil, (with Hypophosphites of Lime and Soda) contains no grease—an unusual idea, but a scientific fact. It cures Coughs, Colds, Grippe, Weak Lungs, Bronchitis, Consumption, Catarrhal conditions, Nervousness, Sleeplessness, Indigestion, Malassimilation, Rheumatism, Skin Diseases, Pimples, Blotches, weakened conditions following fevers, Impurities of the Blood—makes more and better flesh—because it is a direct remedy.

There is no grease in it to disorder the stomach—appetizing taste, pleasant odor—every drop is immediately applied to rebuilding flesh, nerves, blood, muscle. Improvement begins with the first doses; recovery is very rapid.

Prepared by KATHARMON CHEMICAL CO. St. Louis, Mo.

## SHERIFF'S PROCLAMATION.

Whereas, by the laws of Ohio, regulating any general election it is made the duty of the Sheriff, and he is thereby required to give public notice by Proclamation throughout his county of the time of holding such election, and the officers at that time to be chosen.

In pursuance of such requirement, I, William H. Anderson, Jr., Sheriff of Licking County, Ohio, do hereby proclaim, and make known that the first Tuesday after the first Monday, being the 4th day of November, A. D. 1902, is, by the Constitution and laws of Ohio, appointed the day on which the qualified electors of Licking County, Ohio, shall meet in their respective election precincts, at such places in said election precincts as the elections therein are daily appointed to be held, between the hours of 9 o'clock, central standard time in the forenoon, and 5 o'clock, central standard time in the afternoon, and proceed to ballot for:

- One person for Secretary of the State of Ohio.
  - One person for Judge of the Supreme Court of the State of Ohio.
  - One person for Dairy and Food Commissioner of the State of Ohio.
  - One person for Member of the Board of Public Works of the State of Ohio.
  - One person for Member of Congress for the Seventeenth Congressional District of Ohio.
  - One person for Judge of the Circuit Court for the Fifth Judicial Circuit of Ohio.
  - One person for Probate Judge of Licking County, Ohio.
  - One person for Prosecuting Attorney of Licking County, Ohio.
  - One person for Sheriff of Licking County, Ohio.
  - One person for Commissioner of Licking County, Ohio.
  - One person for Treasurer of Licking County, Ohio.
  - One person for Coroner of Licking County, Ohio.
  - One person for Surveyor of Licking County, Ohio.
- Given under my hand at the Sheriff's office in Newark, Ohio, this 10th day of October, A. D. 1902.

WILLIAM H. ANDERSON, JR., Sheriff of Licking County, Ohio.

## AN OLD FAVORITE

### "ALL QUIET ALONG THE POTOMAC" (THE PICKET GUARD)

By Ethel Lynn Beers

ETHEL LYNN BEERS was born at Goshen, N. Y., in 1877 and died at Orange, N. J., in 1902. The following poem, the best known of her work, has been claimed by several writers, but Mrs. Beers' title to the authorship is now generally conceded. The poem was first published in Harper's Weekly Sept. 30, 1901.

"All quiet along the Potomac," they say, "Except, now and then, a stray picket is shot, as he walks on his beat to and fro. By a rifleman hid in the thicket. 'Tis nothing—a private or two now and then. Will not count in the news of the battle. Not an officer lost—only one of the men. Meaning out, all alone, his death-rattle."

All quiet along the Potomac to-night. Where the soldiers lie peacefully dreaming; Their tents in the rays of the clear autumn moon. Or the light of the watch-fire, are gleaming. A treacherous sigh of the gentle night-wind Through the forest leaves softly is creeping; While stars up above, with their glittering eyes, Keep guard, for the army is sleeping.

There's only the sound of the lone sentry's tread. As he tramps from the rock to the fountain, And thinks of the two in the low trundle-bed Far away in the cot on the mountain. His musket falls slack; his face, dark and grim, Grows gentle with memories tender, As he mumbles a prayer for the children asleep, For their mother; may Heaven defend her!

The moon seems to shine just as brightly as then That night, when the love yet unspoken Leaped up to his lips—when low-murmured vows Were pledged, to be ever unbroken. Then drawing his sleeve roughly over his eyes He dashes off tears that are welling, And gathers his gun closer up to its place, As if to keep down the heart-swelling.

He passes the fountain, the blasted pine-tree, The footstep is lagging and weary; Yet onward he goes, through the broad belt of light, Toward the shade of the forest so dreary. Hark! was it the night-wind that rustled the leaves? Was it moonlight so wondrously flashing? It looked like a rifle \* \* \* "Hail Mary, good-by!" The red life blood is ebbing and plashing.

All quiet along the Potomac to-night: No sound save the rush of the river; While soft falls the dew on the face of the dead— The picket's off duty forever!

## Towns Near Newark.

### GRANVILLE. FUNERAL. SWEETHEART

Football Team Go to Cleveland—The Sinnet Gas Well—Runaway—Other Briefs.

Granville, O., Oct. 31.—The members of the Denison football team will leave this evening for Cleveland, where they will play the Western Reserve tomorrow. They will spend the night in Shelby. This will be one of the most interesting games of the series. The Western Reserve team is classed as one of the strongest in Ohio. This will be Denison's first visit to Cleveland.

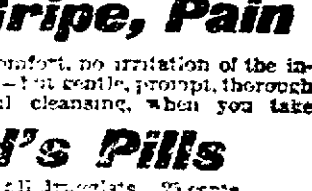

John Wonderly, of Lancaster, has been here for the past several days, getting things in readiness to commence work on the Sinnet gas well. Mr. Wonderly who is the contractor and driller of this well, says they will start to rig up the derrick on Monday, and that the work will be commenced in a few days thereafter. The derrick is now being erected by three men who came here from Sugar Grove.

A meeting of the delegates who attended the Y. W. C. A. meeting at Wooster last week, was held this afternoon at one o'clock for the purpose of giving a report of the meeting.

While Alex Thomas was driving on the Lancaster road a short distance south of town, accompanied by Mrs. Boaz Jones, the horse frightened at something alongside the road and ran away, breaking the buggy and throwing the occupants out on the ground. Mrs. Jones was hurt about the face and one of her thumbs was broken, while Mr. Thomas escaped with a few scratches on the face.

Miss Helen Wilson of Springfield, O., who has been visiting here for some days, the guest of friends, has returned home.

**CHOKED ON POPCORN.** Mr. Gilead, Ohio, Oct. 31.—Wednesday evening Mrs. C. C. Harrison House while eating popcorn with a company of friends choked and after terrible suffering all night died yesterday.

**Hood's Pills**

Sold by all druggists. 25 cents.

terfield, state fish and game warden, has returned from his third trip with the state fish car "Buckeye." The trip required three days, and more than 40,000 bass, croppies and cat were delivered at various stations in the northwestern part of the state.

The warden started out from the hatcheries at London Thursday evening on the fourth and last trip of the season. The car was loaded with stock during the day, 35,000 fish being put aboard in cans ready for delivery.

Bad dreams, disturbed sleep, indigestion, stomach gas all vanish before Walther's Peptonized Port.

Recovered Speech and Hearing.

Messrs. Ely Bros.:—I commenced using your Cream Balm about two years ago for catarrh. My voice was somewhat thick and my hearing was dull. My hearing has been fully restored and my speech has become quite clear. I am a teacher in our town. L. G. BROWN, Granger, O.

The Balm does not irritate or cause sneezing. Sold by druggists at 50c, or mailed by Ely Bros., 56 Warren street, New York. eod-w

## PROPOSED

Glass Factory at Utica—Indiana Men Have Submitted Proposition to the Town.

Utica, Oct. 31.—The Utica Board of Trade has a proposition from D. M. Kitzelman of Muncie, Ind., and T. H. Johnson of Indianapolis, to construct a window glass factory in Utica. The men ask for a five acre site and natural gas for three years. They agree to employ 65 to 70 men, with a pay roll of \$1,500 a week. Since leaving town Mr. Johnson has written that free gas must be given with the site for the plant. The Utica Herald has it that one big concern has suggested the building of a bottle factory to employ 125 persons, part of them boys, if they are given encouragement by the Utica people. The committee consists of Messrs. Levi Knowlton, C. W. Jewell, H. E. Harris, A. T. Stanton, J. D. Tewell, Wm Hulshizer, G. M. Sipe, and D. P. Campbell. The committee hope to secure funds by the lot selling plan.

## SWEETHEART

Receives Bullet That Was Intended for Her Brother—A Tragedy at Henryville, Ind.

Henryville, Ind., Oct. 31.—Rosa Lightcap, aged 18 years, was shot and instantly killed by her sweetheart, William C. Beckett. Beckett had been employed by Miss Lightcap's father, who is a wealthy farmer, and fell in love with her. His affection was reciprocated, but her parents objected, and Beckett was discharged. He called yesterday morning at the Lightcap home and was met at the door by Miss Lightcap's brother, who ordered him away. A fight followed. The girl appeared just as Beckett drew a pistol and leveled it at Lightcap. She jumped between the men just as Beckett fired. Beckett fled.

An Englishman has invented a machine for receiving and registering theatre tickets, which, when once inserted, cannot be abstracted. This invention will shortly be given a trial at some of the leading London theatres.

**DANCE.**—Quite a number of Newark people went up to Hebron on Thursday evening, and had a delightful dance in Odd Fellows' Hall. The Newark Mandolin Club furnished the music for the occasion.

## THIS IS A FACT.

There is No Question About It—It's a Plain Statement of Facts—Made by a Newark Citizen.

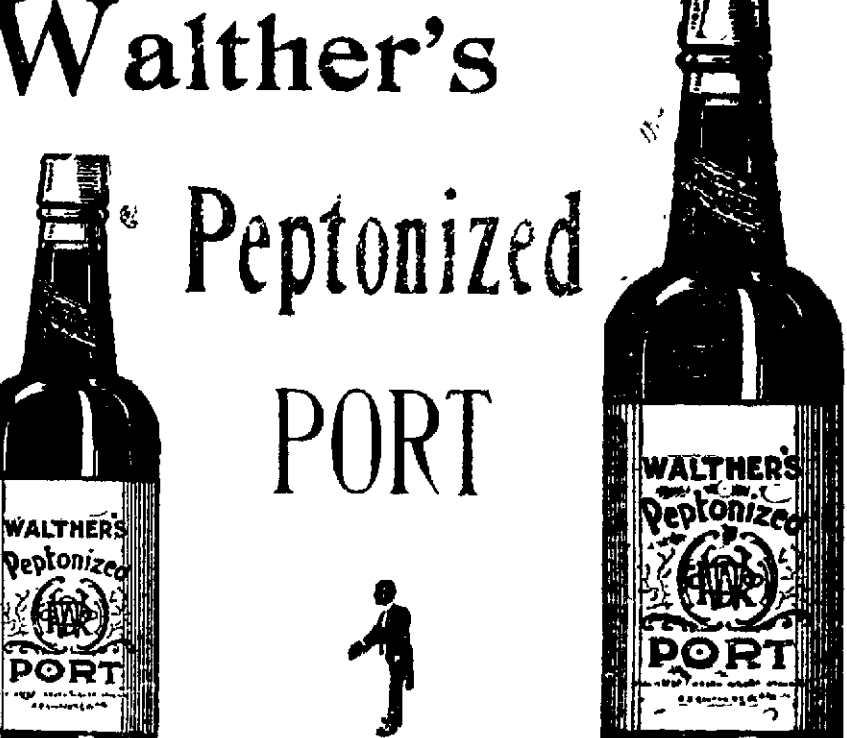

Mr. J. P. Bullock, of No. 123 Second street, Newark, Ohio, says:

"I can honestly recommend Dr. A. W. Chase's Nerve Pills I got at Brickler's Drug Store to those who are nervous, debilitated and sleepless. In these conditions I found the medicine would quiet and steady the nerves, give general strength and restful sleep consequently I like them."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

## IMMENSE NOTICE

Mining Scheme in Western Pennsylvania—A Large Tract of Coal Land Acquired.

Pittsburg, Oct. 31.—Work has just been started on what is probably the most important mining venture undertaken in western Pennsylvania in years. Guffey & Queen, the well-known oil producers, associated with the old Carnegie Steel company interests, have formed the Great Lakes Coal company, with \$5,000,000 capital; have acquired 25,000 acres of coal near Brady Bend; have begun the opening of ten large mines and will open five more, giving them a daily output of 12,000 tons.

It is the intention of the company to enter aggressively in the great lakes coal trade during the coming spring, and preparations have already been made to stock the coal this spring and ship it at the opening of navigation to Conneaut Harbor over the Pittsburg, Bessemer and Lake Erie railroad.

Over 1,000 men have been put to work constructing 18 miles of what will be a 50-mile line from Red Bank to New Castle, thoroughly opening the monster tract. It is the expectation that this road, known as the Western Allegheny, will become an important link in the Pennsylvania system to relieve the freight congestion of the Pittsburg district.

Lost and Found notices, page 6.

Mrs. Mary Hartwell Catherwood, the novelist, is critically ill at her Chicago home. Her physicians are hopeful of her ultimate recovery, but she has not been in good health for more than a year.

## DEATH

Of Dr. C. M. Bethhauser Formerly of Newark, Occurred in Columbus October 30.

Dr. Charles M. Bethhauser died Thursday at Columbus. The doctor was born in Germany in 1834. His parents intended him for the Catholic ministry, but he joined the liberal movement of 1848 and took part in the students' rebellion. Dr. Bethhauser came to Ohio and adopted Newark as his home. He learned the saddlery trade and worked at that in daytime and studied at night. In 1855 he was ordained at Reynoldsburg. The funeral will be held Saturday at Columbus.

### Barrett-O'Bannon.

Miss Phila O'Bannon and Mrs. Chas. E. Barrett were married at the Lutheran parsonage last evening at five o'clock. Rev. J. C. Schindel officiating. Mr. Barrett is a trusted and popular employee at the B. & O. shops and enjoys the friendship of a wide circle of acquaintances. Mr. and Mrs. Barrett will make their new home in the recently erected property at the corner of Oakwood and East Main streets.

Scald head is an eryema of the scalp very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50c.

## THE RAILWAYS

LOCAL AND GENERAL NEWS OF THE DAY.

Santa Fe's New Lines—Blodgett's Funeral—Pennsy Deal—A New Sunday Train Here.

**SANTA FE'S NEW LINES.**  
Santa Fe, N. M., Oct. 31.—Incorporation papers have been filed for the Atchison, Topeka and Santa Fe cut off of Mexico, near the New Mexico boundary, to Rio Puerco in Valencia county. It will be 265 miles long and will be the connecting link for a direct east and west line from Kansas City to Los Angeles.

Two branch lines also were incorporated, one from Rio Puerco to Abo Pass, meant for all travel and traffic from Mexico to El Paso, Los Angeles or Kansas City and Chicago and a cut off from Brazil Springs by way of Portales into Texas, to connect with Fort Worth and Galveston, giving a direct line from San Francisco and Los Angeles to Fort Worth and Galveston. The capital stock is \$9,625,000.

**THE FUNERAL OF P. S. BLODGETT**  
Cleveland, Oct. 31.—The funeral of P. S. Blodgett, late general manager of the Lake Shore and Michigan Southern railroad, took place yesterday afternoon, the services being held in Calvary Presbyterian church. The sermon was preached by Dean Williams of the Trinity Episcopal cathedral.

**PENNSYLVANIA DEAL.**  
Pittsburgh, Oct. 31.—H. C. Frick, A. W. Mellon, and R. B. Mellon of this city, A. J. Cassatt, president of the Pennsylvania railroad, the whole board of directors and other officials of the Pennsylvania, held a conference in Erie yesterday that may consummate one of the most important deals recently made by the Pennsylvania railroad.

On October 20 A. W. Mellon and R. B. Mellon became possessors of one of the most valuable sites on Lake Erie for a harbor.

This land lies only a short distance from the lines of the Erie and Pittsburgh division of the Pennsylvania. The conference between the Pittsburgh men and the Pennsylvania officials is understood to be for the purpose of making an agreement whereby the Pennsylvania railroad can build a branch from the Erie and Pittsburgh division to keep this new harbor.

**O. C.'S NEW SUPERINTENDENT.**  
The appointment of Harry E. Speaks as superintendent of the Ohio Central Lines was received with a great deal of satisfaction by his many friends in Columbus. Mr. Speaks is a capable official and a pleasant gentleman and his career will be watched with consuming interest. When he went to the Ohio Central as trainmaster he had many difficulties to face, but he mastered them all and made friends everywhere.

**Special Sunday Train.**  
The Baltimore and Ohio Railroad company has made arrangements to run a special train from Pittsburgh to Cincinnati every Saturday night. This train will leave Newark at 5:50 a. m. and will arrive in Cincinnati at 10:50 a. m. Sunday morning. This service will prove of great convenience to Newark people who desire to spend Sunday in the Queen City. Returning the train will leave Cincinnati at 8 o'clock and will arrive in Newark at midnight.

Conductor J. W. Perry of the local pickup of the C. O. division has been given a short leave of absence.

### THE ESQUIMO

The Esquimo eats blubber. The lumbermen eat pork. These people are constantly exposed to cold and physical strain. Experience has taught them that fatty foods give warmth and nourishment.

For those who have cold and thin bodies, or are threatened with consumption or any wasting disease, there is no fat in so digestible and palatable a form as Scott's Emulsion. Physicians prescribe it.

SCOTT & BOWNE, 43, Pearl Street, New York.

## It's Important

to have your bowels move regularly. When you are constipated your entire system is clogged up with poisonous matter. This means imperfect health, resulting in Headache, Sleeplessness, Backache, Biliousness, Ill Temper, Loss of Appetite, Indigestion and Weakness. Take this laxative made to be relieved and cured.

### Lyon's Laxative Syrup

is the best as thousands will attest. It is composed of nature's best properties, fruits and vegetables, in proper proportions, known to us only. Acts gently and is pleasant to take. Children and ladies especially like it.

At all Druggists, 25 and 50 cents.

**LYON MEDICINE COMPANY, Louisville, Ky.**

**HALL'S DRUG STORE**

Conductor I. A. Woodward of the Shawnee division has been given a leave of absence for a few days.

Brakeman N. J. Davis of the L. E. division is on the sick list.

Brakeman J. M. Mills of the Cincinnati run, is off duty on leave of absence.

Brakeman R. H. Willey of the L. E. division is on the sick list.

Brakeman R. H. Jones of the Cincinnati run is working again, after having been off duty for some time on account of sickness.

Brakeman A. L. Reel of the C. O. division is on the sick list.

Yard Conductor Hughes is off duty on account of the sickness of his wife.

**GAS WELL**—The drill was started on the Forbing gas well northeast of Utica Tuesday.

**NOTICE**—The Independent Order of Foresters will meet at their lodge room Sunday, November 2 at 1 p. m. sharp to attend the funeral of Brother Sturman.

**ORGANIST**—At the regular meeting of the official board of the First M. E. church Thursday evening, Miss Pearl Bourner was elected as organist for the year.

**Y. M. C. A.**—Evening Educational classes in mechanical drawing, bookkeeping, stenography, illustrating and lettering, German and English, just started. Time enough yet to enter classes if you will register at once. Call at Y. M. C. A. or write to the secretary.

**BOYS ARRESTED**—Three small boys named Blaine, Sutton and Linky were arrested this morning by Officers Zergiebel and Carroll on a warrant sworn out by James Pierson of Arch street, charging them with disorderly conduct on Thursday night. The boys were taken out of school in the East End this morning and they will have a hearing tomorrow morning.

**SOLD STOVE**—Mr. and Mrs. George Nichol who recently moved into the George B. Sprague property, sold a heating stove in a very unique manner. They had printed 75 tickets which called for, from 1 to 75 cents. The person wishing to take a chance drew a ticket and paid the amount thereon. Mr. Nichol realized more than \$20 for the stove, and everyone seemed very pleased with the result.

**DUCK ROAST**—Mr. Jacob Shrader, the popular proprietor of the Avondale House, on Buckeye Lake, gave a big duck roast at that popular hostelry on Thursday. The guests included a large number of prominent local locomotive engineers and their wives together with a number of visiting engineers. Fifty-two ducks were roasted. The feast was a royal one, and everybody had a grand good time. Among those present were Mr. and Mrs. John Floyd, Jr., Mrs. Joseph Floyd, Mr. and Mrs. Thomas Floyd, Mr. and Mrs. William Floyd, James J. Floyd, C. L. B. Powell and wife, Doc Powell, Daniel Barrick, John Powell, Joseph Smallwood, George Snook, G. G. Lipscomb, Charles Henry, Otis Powell, ex-Mayor Herbert Atherton, Oscar Wilds, "Corky" Hall and others.

**FINED A DOLLAR**—George Handel, the Third street butcher was fined \$1 Friday by Squire Crilly for taking coal from the B. & O. railway company's cars.

Far, far better than beer, ale, porter or wine, and free from intoxication is Walker's Peptonized Port.

A New York man found a gold ring in a fish's stomach yesterday labeled "Lew to Lou \$2."

## HURT IN WRECK

Bart Aiken of Newark Received Probably Fatal Injuries Thursday Night--His Mother Leaves For Addison, New York.

At a late hour on Thursday night Marshal Vogelmeier received a telegram from the Erie depot, at Addison, N. Y., stating that Bart Aiken, of this city, had been dangerously injured in a wreck at that place, and requesting him to notify relatives. The telegram was delivered to Mrs. Ada Aiken, mother of the injured man at her home, 46 Grant street, about ten o'clock Thursday night. At 2 o'clock Friday morning Mrs. Aiken received another telegram from Addison, signed by Dr. M. B. Hubbs, informing her that her son had been dangerously injured, and for her to come on at once, and bring "Lottie," with her. Later in the morning Mrs. Aiken received another telegram from Dr. A. A. Aldrich informing her that her son was alive, and a little better, and that there was some hope that his life could be saved.

**SUPPOSED DEAD BROTHER**  
Returns After Absence of Forty Years--Joyful Meeting With His Sister in New York State.

Jamestown, N. Y., Oct. 31.—When Mrs. Katherine Follard, residing at No. 27 Rathbone street, this city, opened the door of her home in response to a gentle knock and beheld a partially silver-headed old gentleman standing there who announced himself as her brother, she drew back considerably alarmed. She recognized in the caller one who for many years had supposedly been at rest in his grave. Just where, she had never been able to learn. Now, this brother, F. A. Smith of Aberdeen, Kan., and Mrs. Follard are enjoying each other's society after a separation of over 40 years. Smith, at the beginning of the Civil war went to the front with the Fifty-fourth Pennsylvania Volunteers. As a sergeant, he fell, supposedly fatally wounded during the engagement at Newmarket, Va. and with other prisoners was removed to the Andersonville prison, where he languished for about nine months. He was reported among the dead to the war department and in accordance official information of Smith's demise was forwarded to his relatives, who shortly afterwards changed their location. When liberated at the close of the war, Smith, unable to find the whereabouts of his relatives, went to Kansas and settled there. While en route from Aberdeen a few weeks ago to the National Encampment at Washington, the old soldier stopped off at Cumberland, Md., and there learned of the sister living in Jamestown.

### STEEL TRUST

A Monstrous Giant—Ex-Senator Vilas Makes a Strong Speech at Milwaukee, Wis.

Milwaukee Oct. 31.—The United States Steel Corporation and the "glass trust" were denounced as "monstrous giants of evil" by former United States Senator William F. Vilas at a Democratic mass meeting at the Pabst Theatre in this city last night.

Referring to the United States Steel Corporation Mr. Vilas said: "This corporation is the practical dictator of the price which Americans must pay for everything they buy within its line of manufacture. This is a monstrous giant of evil to stand towering under American industrial skies. Yet it is probably no greater in proportion than others in other lines. Of course the iron trade is an enormous one, and a combination to control it must necessarily be gigantic. The Standard Oil Company is possibly as great, so far as profits are concerned, at least, as the steel corporation.

"Another illustration might well be found in the glass trust. It has become perhaps even more complete in control of the glass manufacture than the steel corporation in the control of steel, and it has more than doubled prices since the combination was formed. This indicates the splendid extravagance of the protective tribute which the tariff law awards to that combination."

A New York man found a gold ring in a fish's stomach yesterday labeled "Lew to Lou \$2."

### HIS LIFE IN PERIL.

"I just seemed to have gone all to pieces," writes Alfred Bee, of Wellford, Tex., "billiousness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run-down people. Try them. Only 50c at Hall's drug store.

### CLEVELAND

Spoke at a Big Democratic Rally Last Night—Ex-President Makes a Prophecy.

Morristown, N. J., Oct. 31.—Former President Grover Cleveland was the principal speaker at a big Democratic rally here last night. Lyceum Hall was crowded with people, many of whom had come from out of town to hear the ex-President's summary of the political situation.

Mr. Cleveland insisted that tariff reform should be the principal issue of the campaign and that the trusts are the natural outcome of the present tariff laws. He also reviewed his message of 1887 and repeated his views that the surplus is a grave danger.

After ex-President Cleveland had left the Lyceum meeting and was making his way to a carriage, an unusual incident occurred. There was a great crowd around the building which had been waiting for a glimpse of him and they closed in around the former President and compelled him to mount a temporary platform in the street. Mr. Cleveland said:

"You have been waiting so long here in the street," he said, "that it would seem discourteous in me to refuse for a little time to share your company. I want out of my heart to say to you that it seems to me that the hour is at hand when the tide of adversity which has been rolling against the Democracy is about to recede, when the light of a new dawn is in sight over the hills."

"You know I seldom indulge in prophecy, but no man can doubt the signs of the times. Next Tuesday will tell a story in this district, in New York and all over this land, which will bring cheer to all of us. We are on the threshold of the day when the prosperity of which the rulers of this nation have boasted, but which a few have absorbed for a few, will see Democratic triumphs distributed among the humblest of you."

Consumption can certainly be cured. Not all cases, but very many. Ayer's Cherry Pectoral is the medicine. J. C. Ayer & Co., Lowell, Mass.

## TODAY'S MARKETS.

Try WHITE SWAN flour. Made at R. C. Bigbe's new up-to-date Sifter System mill. New phone 2 on 446.

Cures croup, sore throat, pulmonary troubles—Monarch over pain of every sort. Dr. Thomas' Electric Oil. mvt

Sierra Leone is to be a British coaling station, and it is intended permanently to attach a gunboat and a cruiser to it. The fortress at Sierra Leone has for some time past been strengthened by the erection of some of the most modern guns of heavy calibre.

### Special Registration.

The City Board of Elections will be in session between the hours of 2:30 and 5:30 p. m. next Monday, November 24, 1902, for the purpose of granting orders of registration to those who are entitled to register. The registrars of the city will be in session between the hours of 3 and 5 p. m. to register voters upon order of the Board of Election, and to issue and receive transfers.

Voters who were more than 50 miles distant from Newark on each of the regular registration days, October 9, 16, 24 and 25, are entitled to an order for registration on next Monday afternoon. The office of the Board of Elections is on the second floor of the Anker block.

### OBITUARY NOTICES.

All obituary notices exceeding fifteen lines in length are charged at the rate of five cents a line. In estimating the length of notices count six words to the line. Resolutions adopted by lodges, societies, churches or other organizations are charged for at the rate of five cents a line.

One of the delusions of a lunatic recently sent to an asylum at Ararat, Victoria, was that he was being pursued by a ghost which he had come all the way from the Galtee mountains, in Ireland, to haunt him.

Hartlebury Castle, England, the oldest episcopal residence in the world, is to be sold being too costly for a Bishop without private means to maintain. The place may be purchased for diocesan work.

## SWINDLER

WHO PASSED FORGED CHECKS IN NEWARK

May be the Same Man Who Visited Delaware the Other Day on a Like Mission.

The check swindler who operated successfully in Newark a few days ago is believed to be the same man who dropped into Delaware the other day and received \$24.52 with some groceries and meat for his daring.

C. L. Shoemaker's and Donovan & Jacobus' meat market and J. W. Campbell's South Sandusky street grocery were the business places picked out by the swindler as a feed for his operations at Delaware.

Thursday evening during a rush of business the swindler stepped into Shoemaker's and purchased meat, seventy cents worth in all. "I haven't any change," he said, "but here is a check, a small one, from McKenzie & Thompson, my employers." The check was one of the regulation First National bank's issue. It was payable to Sam Nuggett and called for \$9.40. A rubber stamp had been used for dating and numbering. The firm name was stamped in also and "per Wm. McKenzie" written in. The writing had been executed in rather a fine hand while the endorsing was done in a scrawling style. The check looked good to Mr. Shoemaker and the man who presented it looked like a teamster, such as the company employs.

The meat man handed over \$8.70 in change. Next day he presented the piece of paper at the First National and was told that McKenzie & Thompson did not transact business there.

A similar scheme was worked at the other places the swindler visited.

The fellow is described as being a man of medium build, probably 35 years old. He was dressed in working clothes, and wore a black slouch hat, which rather concealed his face. He wore a heavy black, curling mustache and his face was cleanly shaven. "Come to think it over," says each man, "and it doesn't seem now as if he was the laboring man he professed to be. But he was a 'working man' just the same."

## GIRL'S NOSE

Broken as They Fled from Her Angry Father, But the Couple are Now Safely Wedded.

Cumberland, Mr., Oct. 31—John W. Hoskins and Sarah V. Tedrow, both of North Meyersdale, eloped here yesterday and were married. They were united in the office of Justice Marcus Martin by Rev. W. A. Melvin. They first asked the Justice to perform the ceremony but having no legal right as sent for a clergyman.

The couple were anxious to keep their movements quiet on account of the pursuit of the bride's father, which as it was, resulted rather seriously for her, as she had her nose broken in being thrown from a vehicle in a runaway while fleeing from her home to the railway station.

Ten minutes after the ceremony the couple were on a train returning home.

### For Over Sixty Years.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. Newark's Greater Store.

## MAIL BOX

And Postoffice Robberies on the Increase—The Number of Postmasters Appointed.

Washington, Oct. 31—A total of 2370 presidential postmasters were appointed last year according to the annual report of J. J. Bristow, fourth assistant postmaster general. This is the largest number appointed in any one year in the history of the postal service. The increase was due mainly to the expiration of commissions, during the year and the advance of many fourth-class officers to the presidential grade.

The total number of appointments of postmasters of all classes was 16,970, an increase of 1,313. There was a slight increase in the number of removals of postmasters "four cause" as a result of a more strict discipline for carelessness and irregularities.

There were 3,038 discontinued, the latter attributed mostly to the accession of rural free delivery and the consolidation of postoffices adjacent to large presidential postoffices.

The report shows that burglaries of postoffice and robberies of mail boxes are on the increase. Arrests and convictions for all offenses have materially increased. There were 1,746 robberies of postoffices, eleven robberies of mail trains; sixteen of mail messengers, star route carriers and wagons and letter boxes.

The total of 1,721 persons arrested for violating postal laws, 304 were connected with the postal service.

An amendment of the interstate commerce law is urged to prohibit telegraph and express companies or their employees from aiding in the green goods or lottery swindles, or schemes carried on partly by mail and partly by common carrier.

BURIAL SERVICE—The funeral of Daniel Sturman will take place at 2 o'clock Sunday afternoon at St Paul's church. Rev. J. C. Schindel officiating. The ceremony will be under the auspices of Acme Masonic lodge, whose members and other Masons in the city are requested to meet at the lodge room at 1 p. m. to attend the service.

The exports of pig iron from the United Kingdom in the eight months ending August 31, were 612,930 tons, as compared with 589,350 tons in 1901, and with 1,045,256 tons in 1900.

## RABBIT SEASON

Protection by Law Except Between No. 10 and Dec. 1, So Beware of Violation.

(Columbus Dispatch.)

A stupid blunder has caused the Ohio fish and game commission officials all kinds of trouble, and has, no doubt, been the means of causing a large number of persons to break the laws intended to protect fish and game. The blunder was the publication of a story to the effect that the president of the commission had issued a statement embodying permission to hunters to kill rabbits at any time during the year. The story was noted and republished in papers throughout the state, and the deputy game wardens have been assailed from all sides with queries as to the authenticity of the statement.

The deputy wardens could do nothing but write to the headquarters of the commission and ask State Warden Porterfield for information on the subject. Hundreds of letters have been pouring into the warden's office, and for days his stenographer has been busily engaged in preparing and sending out formal replies to them. The section of the laws relating to the killing of rabbits is enclosed in each letter with the statement that the open season is November 10th to December 1st, inclusive and that any violation of the law will be punished to the full extent.

### LITERATURE, ART AND MUSIC.

Literature, Art and Music, the new magazine, has the finest writers and the best stories. Every month it gives either a sheet of new music, worth fifty cents, or an Art Study in Color, worth seventy-five cents, each separate from the magazine. It can be bought from newsdealers, or sent ten cents for sample copy to Publisher Literature, Art and Music, 125 East 23rd street, New York City. The subscription price is one dollar a year.

A good excuse for sickness of yourself and family is that you don't use Walther's Peptonized Port.

Engineers and artificers for the French navy are to be trained on board an old transport which has been turned into a naval schoolship at Bordeaux. She will accommodate 400 cadets, who will go through a four years' course.

## TOMORROW

Crowd Lecture Will be Given at Taylor Hall—Rev. L. C. Sparks Speaks Monday.

The Popular Saturday Night Entertainment at the Y. M. C. A. this week Saturday evening should be "popular" indeed, if a strong attraction can make it so. Denton Chester Crowl, Ohio's great boy orator, who gives one of Sam Jones' famous lectures, is making a great hit wherever he goes. At Springfield, O., where Mr. Crowl gave one of these lectures a few weeks ago, The Press-Republic in speaking of his success, said: "The Sam Jones wit and repartee were marked throughout the lecture; the characteristic tone of voice and gestures were reproduced with remarkable exactness. Nothing but words of praise could be heard after the meeting for the manner in which Mr. Crowl gave the lecture." Remember the date, Saturday evening, Nov. 1, in Taylor Hall. Admission only 10 cents.

The address at the Men's Meeting on Sunday afternoon by Rev. L. C. Sparks, the new pastor of the First M. E. church. He takes for his subject "The Young Man's Toboggan Slide." The young men who attend are sure of hearing a most excellent address. Special music is being secured, so the meeting Sunday should attract a large audience again.

The boys will be very glad to learn that Miss Marion Lumley has consented to conduct a Boy's Bible Class again this year. The class will meet for the first time Sunday afternoon at 2 o'clock in the Y. M. C. A. parlors. All boys are invited to come in and join this class. Those boys who signed cards at the Boys' Meeting Monday afternoon are especially urged to come.

Feeble ladies, aged persons, weakly children, all need Walther's Peptonized Port daily. See testimonials.

There were 8,7652 birth registered in England and Wales during 1900. These figures are equivalent to a birth rate of 28.7 per cent per 1000 persons living, which is the lowest on record.

Chicago women have just discovered that dew baths are good for the complexion.
